Code of Conduct
Issues

https://wiki.geant.org/display/gn42jra3/eduGAIN+SAML+Requirements

- Need to separate out joining requirements (Members) from SAML requirements (Participation).
- “semi-mandatory requirements in an optional profile”.
- SP and IdP requirements in a document for Federation Operators.
- Issues that have arisen in eduGAIN approval process that are not covered (e.g. eligibility, scope etc.).
- Inconsistent behaviour.
We need to talk about publication
4 Step Plan (admit you have a problem...)

- **Step One**: Separation of Joining Requirements and SAML Requirements

- **Step Two**: Define a core set of mandatory requirements for SAML Metadata

- **Step Three**: Position Policy Template and MRPS Template as part of eduGAIN documentation

- **Step Four**: Position external profiles as Recommended Best Practice documents
