Data protection Code of Conduct to Support Collaborative Research

Modern research is highly international and collaborative in nature and relies increasingly on the use of IT. Researchers need to share research resources, such as datasets and instruments, and access collaboration platforms managed by other universities or research institutions.

Federated identity management technology helps researchers to access resources outside their

On behalf of the CLARIN research infrastructure for humanities and social sciences

Executive director, CLARIN ERIC
"International" Code of Conduct
For attribute release out of EU/EEA

- No much news
- There is a stable draft (4/2014):
  https://wiki.refeds.org/display/CODE/International+Data+protection+Code+of+Conduct
- Discussion on how an SP commits to the Code of Conduct
  - Electronic service?
  - Ink-signed paper, gathered by federation operator?
- Non-EU/EEA organisations welcome to the work
Thank you!
