ORCID IdP as a last resort

Team Alphas

Goals

- bring ORCID-to-SAML into production
    - with formal support from ORCID
- better define attribute profile and usage
- investigate the (technical) improvements needed to better scale the IDhub solution
- begin a dialog with the service activities to make the pilot move towards a full service offering under the GEANT umbrella.

Demo time!

https://orcid2.gndev.hexaa.eu/

Leftover

- Switch to member API (~enterprise)
- Sort out attribute release and consent
- Investigate MFA information retrieval
