

Edu services Norway

Unit - Directorate for ICT and joint services in higher education and research

Edu activities organized in Unit

- Unit - Directorate for ICT and joint services in higher education and research, under Ministry of Education and Research – manages all edu services.
- UNINETT – NREN, infrastructure company owned by Unit

Unit - result of a merger of:

- Service department of UNINETT (edu and admin services)
- CERES (SiS system, national admission services ++)
- BIBSYS (Library and research systems)

Unit – two functions

- Governance of digitalization of higher education and research
- Provide services for higher education and research
- Governance model:
 - Digitalization board – led by sector
 - Sub boards for education research, infrastructure, administrative services and security
 - Joint finance mechanism for bigger projects through the digitalization board

Edu – services in Unit - digital learning environment

- Digital exam – SaaS, own development of integrations
- LMS – SaaS, some integrations
- Urkund - SaaS
- Mediasite – self hosted Unit
- Kaltura – hosted by NORDUnet
- Techsmith Relay – Self hosted Unit, terminated jan 2020
- Adobe Connect – Zoom – hosted by NORDUnet

Finance model

- All services user funded by participating institutions, except student admission system (funded by ministry)
- Different price models for user financed services:
 - FTE based
 - User based
 - Volume based (ie storage)
 - Percent margin on procured services
 - Hybrid models
- Bigger joint development projects can be financed through the digitalization board
