A story of partnerships

Omo OAIYA
Chief Strategy Officer, WACREN

RDM-Services: Partnerships - 05/11/2020
What is LIBSENSE?

Building a community for open science in the African region(s) through library-NREN collaboration in order to:

- Support cultural change
- Provide technical support
- Build capacity
- Develop value-added services

libsense@ren.africa
Auspicious beginnings

- Birthed by the co-occurrence of activities in mid-2017 at the end of two EU-sponsored projects in the African region

- Both highlighted the need for repositories and underscored the role for librarians
Auspicious beginnings

• Informal collaboration between EIFL and WACREN to monitor internet connectivity to libraries.

• Request for a WACREN letter of intent from COAR for collaboration on a task to in OpenAIRE Advance proposal
Auspicious beginnings

- Investment in improving librarians information management capabilities
- Collaboration between three regional RENs in AfricaConnect2 ==> LIBSENSE launch
- University of Sheffield, UK joins to help shape research agenda
- EIFL and COAR involvement provide focus on OAR and building communities for Open Science
Three agenda-setting workshops

Zanzibar, Tanzania - November 2018, in conjunction with Ubuntunet

Accra, Ghana - March 2019, in conjunction with WACREN

Tunis, Tunisia - April 2019, in conjunction with ASREN

The reports from the workshops are available at https://spaces.wacren.net/
Collaboration with NII
Who is LIBSENSE?

And the entire open science community in Africa...
Plans for LIBSENSE in AfricaConnect3

- Establish framework for sustainable Open Science development in Africa
- Pilot to host shared repositories and research data management platform
- Engage with free/low-cost content providers and implement FIM4L with eduID.africa to improve access to publications and journals
- Promote a set of principles and actions for open science indigenous to Africa
