

SIG-NOC Tools Survey 2023

Maria Isabel Gandía Carriedo

18th SIG-NOC Meeting
SUNET, Stockholm, 17-05-2023

Previous Work

- ✓ 1st Survey: July-October'11, published January'12.
 - NOCs' taxonomy, structures, resources, tools, standards...
 - 14 functions
 - 53 questions, 43 valid responses
 - Open boxes to add feedback
- ✓ 2nd Survey: December'15-February'16, published in June'16.
 - Tools, standards
 - 15 functions (14 + DDoS Mitigation)
 - 35 questions (66), 64 valid responses
 - Rating on importance (low/low-mid/mid-high/high) & quality (poor/fair/average/good/excellent)
- ✓ 3rd Survey: July-September'19, published in November'19.
 - Tools, standards
 - 16 functions (15 + Orchestration, Automation and Virtualisation)
 - 35 questions (74), 63 valid responses
 - Rating on importance (low/low-mid/mid-high/high) & quality (poor/fair/average/good/excellent)

What we will review today: the 4th SIG-NOC Tools Survey

- ✓ For all the survey:
 - The “big blocks” and how to sort them:
 - Basic information
 - Tools
 - Standards
 - Missing questions or answers

- ✓ The functionalities we will include.

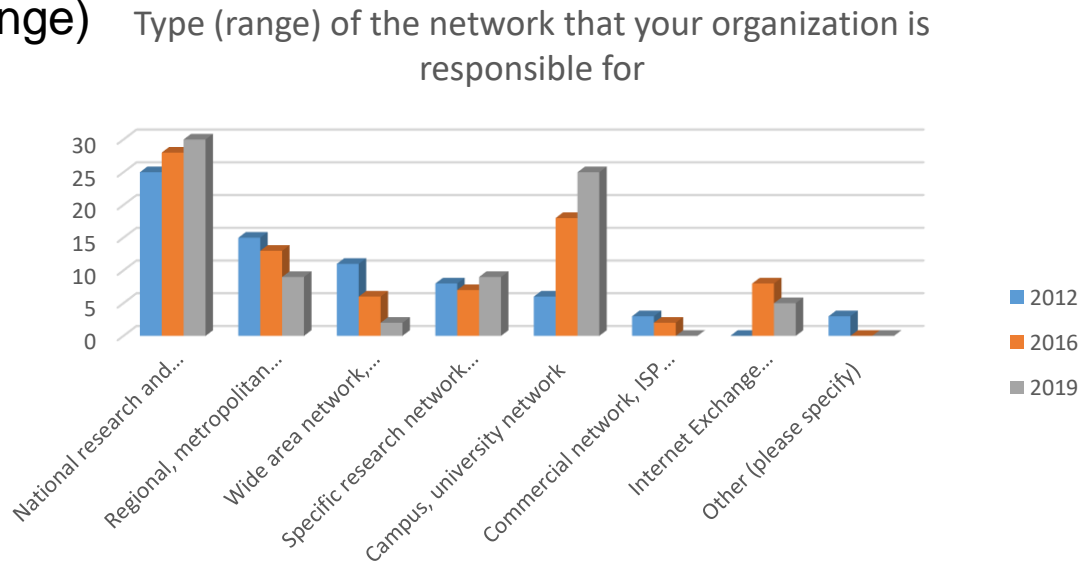

- ✓ For each functionality:
 - The name of the functionality
 - The definition
 - The tools that we will include
 - Missing tools

Basic information

1. Name (acronym) of your organisation

2. Type (range) of the network that your organisation is responsible for
(Please choose all that apply):

- Wide area network among several countries
- National research and education network (NREN)
- Regional metropolitan network
- Campus university network
- Specific research network (any range)
- Commercial network (any range)
- Internet exchange
- Other:

NOC Tools – Introduction and Structure of the Survey

- ✓ For each one of the functions:
 - Short definition of <function>
 - Is your NOC responsible for <function>?
 - Yes → You are asked the questions below
 - No → Jump to the next function
 - What tools do you use for <function>?
 - How important is this tool for your NOC?
 - How would you rate this tool for <function>?

GEANT

SIG-NOC Tools Survey 2019

13. Communication, Coordination & Chat tools

What tools do you use for Communication, coordination, chat? If you don't rate it, it means that you don't use it.

19. How important is this tool for your NOC?

	low	low-mid	mid-high	high
Audium	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

21. In-house developed tool (please specify):

Prev Next

The pre-defined responses in the survey are all the tools that were rated or mentioned by two or more respondents in the 2019 survey

Pre-defined Responses

- ✓ The pre-defined responses are the tools rated or mentioned by **two or more** respondents in the 2019 survey.
- ✓ Open boxes allow to include other tools, including in-house developed solutions, for each function.
- ✓ We are going to review the questions, the definitions and the pre-defined answers.

Do you find any missing or outdated tools or definitions? Any mistakes? Shout!

For each functionality we are going to review...

✓ This functionality stands for...

Short definition

Suggested tools:

- Tool1
- Tool2 (drop/change?)
- Tool3
- Tool4

- Tool5
- Tool6
- Tool7
- Tool8

In red, tools to erase from the survey, mostly because they were not mentioned or mentioned only once in 2019

In green, possible answers to include in the survey, because they were mentioned more than once in 2019 / new suggestions

Answers from one organization in 2016/2019:

Tool9
Tool10
Tool11

Tool12
Tool13
Tool14

Tool15

Tools mentioned only once in 2016 / 2019

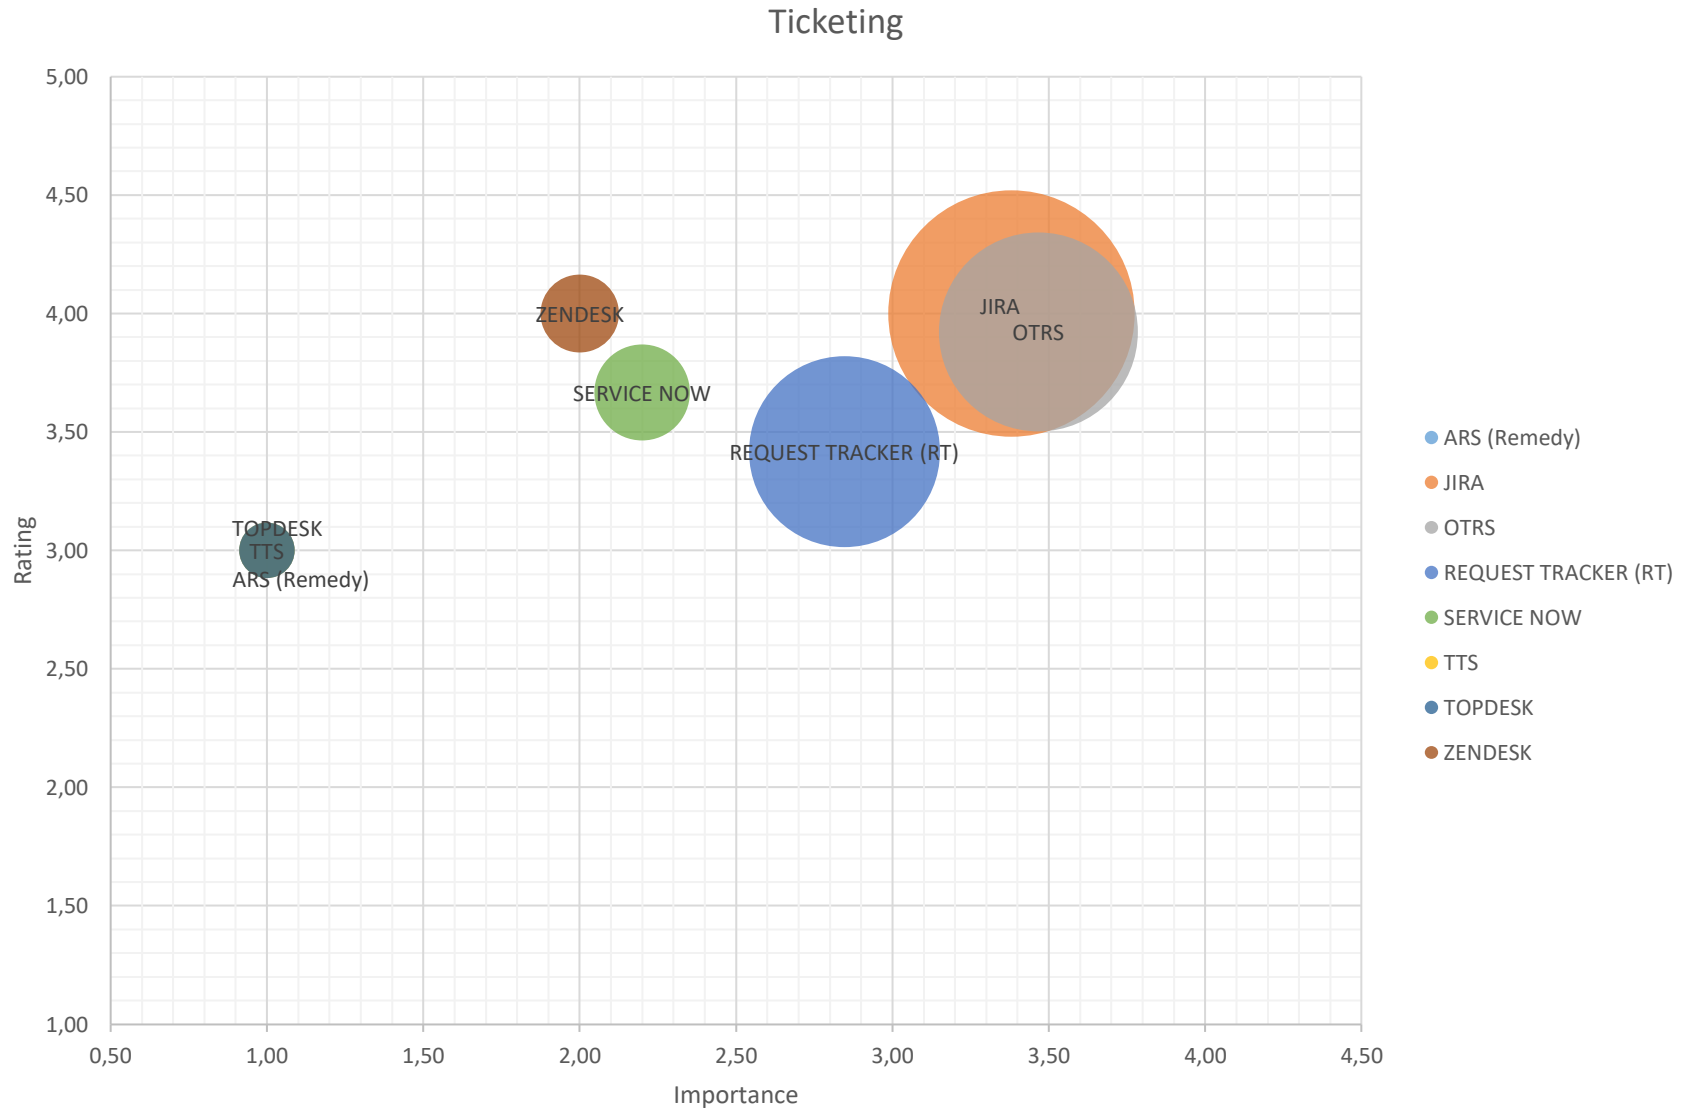

NOC Functions & Tools: Analysis of the Responses How-To

Other not pre-defined tools mentioned by more than one institution, if any (in parentheses, the number of institutions that mention it)

Other tools: TOOL11 (5), TOOL12 (4), TOOL13(4), TOOL14 (2), TOOL15 (2), TOOL16 (2)

Example of graphs from the last survey

Tools: NOCs, Functions and Responsibilities since 2011

NOC Tools – Problem management / Incident management

The primary objectives of Problem Management are to prevent problems and resulting incidents from happening, to eliminate recurring incidents and to minimize the impact of incidents that cannot be prevented. Following the necessary steps in order to identify the source of a problem. Getting warnings about problems or incidents.

Please note communication and collaboration tools will be in a different section.

Suggested tools:

CONFLUENCE ELK stack JIRA NAGIOS NLNOG RING	OTRS REQUEST TRACKER RIPE Atlas / Stats	RIPE RIS / Bgplay ServiceNow (2) SPLUNK ZABBIX	ZINO

Onlyoffice

Videoconferencing
(Polycom)

1-answer 2016:

Asterisk
Kamailio
CallDav
ServiceInfo

(webbased sender
for mailing lists)
SharePoint

NOC Tools – Out-of-band Access

Access to the network devices of an institution from an external network.

We didn't ask about tools in 2019. Should we ask again?:

These are the options we included in 2016:

ADSL
CONSOLE SERVER
DRAC
HP ILO
ISDN
KVM (not the hypervisor)
Landline
Mobile tech

1-answer 2016:

DWDM OSC
POTS

1 answer 2011:

DRAC
IPMI

NOC Tools – Resources management

Organization and control of logical resources such as IP addresses, AS numbers circuit numbers, topology, documentation etc.

Suggested tools:

6CONNECT
BLUECAT
CONFLUENCE
EXCEL
INFOBOX

IPPlan
OMNIGRAFFLE
PhpIPAM (3)
RACKTABLES
VISIO

WIKI

1-answer 2019:

EfficientIP
SOLIDServer
IXP-manager
Microsoft IPAM
Netbox
Netdot
Nocproject.org
PowerPoint
ProactivaNet

Homegrown database for IP-
addresses

Igor

In-house CMDB

Internal IPam

IP Adress Management (IPAM)

IPIS (tracks IP assignments and

syncs to RIPE DB)

Perl scripts

PHP Development

Web-based list of networks and

router-interfaces

Web developed APP

Web interface to Oracle DB

Webform which is fed by a
script that makes SNMP based
routing table polls and DNS
queries.

1-answer 2016:

GIS

GestiIP

HP Openview SDesk

Phpipam

KIND

GIS

BDCOM

In-house 2019:

Custom perl web software
DFN GIS
Equipment inventory
GESIP

NOC Tools – Change management

Controlling and recording of changes in values technologies etc.

Suggested tools:

CONFLUENCE
GITLAB
JIRA
OTRS
REQUEST TRACKER
ServiceNow(2)

1-answer 2019:

Combodo itop
Git
MeisterTask,
ProactivaNet
RANCID
Trello

configuration history
DFN GIS
In-house 'planned
maintenance
calendar' web app

Patchmanager
HP Openview Sdesk
pymetric
Wiki
GN6

In-house 2019:

Change tracker
Storing

1-answer 2016:

Redmine
gitlab
Racktables

DoS mitigation is a set of techniques for resisting distributed denial-of-service (DDoS) attacks on networks attached to the Internet by protecting the target and relay networks.

What kind of DDoS Detection solutions do you use?

Suggested Mechanisms for Detection:

Threat intelligence
DNS solution
Firewall on Demand (2)
Netflow-based tools (2)

What kind of DDoS Mitigation solutions do you use?

Suggested Mechanisms for Mitigation:

Hardware platforms on-site in-line
Hardware platforms on-site off-line
Cloud solutions
No special tool, but blackholes, ACLS, etc

1-answer 2019:

Arbor (3) (Peakflow
SP)

Fastnetmon (2)

FoD (2)

DDoS mitigation

DFN Nemo

Firewall

Kentik

Minemel Netflow

Netflow based scripts

Radware Riorey

Syslog

In-house 2019:

FoD (4)

RTBH (4)

DFN Nada

Fortinet 1500D

Minemeld

This question was probably misunderstood (as some answers are tools, and that was the next question)

NOC Tools – DDoS Mitigation Tools

Suggested tools:

Akamai Solutions

Arbor/Netscout

Cloud solutions

Arbor/Netscout

Hardware Solutions

(Peakflow, SP,
TMS,...)

Blackholing

Cloudflare solutions.

Dyn solutions

Firewall on Demand

BGP FLOWSPEC

RATE-LIMITING

RTBH

UTRS

1-answer 2019:

F5 BigIP

Next generation
firewall

PaloAlto

Remote triggered
black hole

In-house 2019:

AutoBH DDoS

Protector

Black Wall

DFN Mitigation

platform

Nemo+Nada

ExaFS

Tool based on

RTBH

1-answer 2016:

FastNetMon

NOC Tools - Data aggregation, representation, visualisation

Aggregate live data from various tools and represent/visualize them in a human readable way.

Suggested tools:

CACTI
Cricket(2)
ELASTICSEARCH
GRAFANA
KIBANA
LOGSTASH
Observium (2)
SPLUNK
WEATHERMAP

1-answer 2019:

EMMA
Icinga
IXP-manager
Munin
Librenms
Prometheus
Zabbix

In-house 2019:

DMON(under
construction)
FTAS
G3
GINS
In-house CMDB
Nemo
ServiceNow
SURFnet
NetworkDashboard

TurboKrt

1-answer 2016:

MRTG, Tivoli maps,
Juniper RIM
Zino
Zenoss
CheckMK
Observium

NOC Tools – Automation and Orchestration

Automation describes a task or function accomplished without human intervention in a network, like configuration, management, testing, deployment, and operations of physical and virtual devices.

Orchestration describes the arranging and coordination of automated tasks, ultimately resulting in a consolidated process or workflow to automatically define and modify the behavior of the network.

What kind of tasks do you automate?

Provisioning
Routing Configuration
Network discovery

How many devices are you automating tasks for?

Core (number)
Access

Suggested tools and languages:

Ansible

Chef

Cisco NSO

Dockers

Jenkins scripting

Junos Space

Kubernetes

Northstar

Puppet

Python scripting

Salt

ServiceNow

Terraform

1-answer 2019:

Bash scripts

Dude

EMMA

Perl

Zabbix

DFN GIS

Inventory monitor

MegaConf, AutoBH

Perl and javascripts scripts

Scripts to mass generate and deploy configuration and update related databases.

In-house 2019:

Automator

Custom bash, expect and perl scripts

SURFnet WorkflowEngine

Standards

- ✓ What is the estimated level of adoption of the given standard or methodology at your NOC? + How many of your NOC people are certified or trained (in percentage)?

ISO
ISO 20000
ISO 27001
eTOM

ITIL
NITS
FIPS

Standards

- What technical training(s) are provided either in-house or contracted to your NOC personnel? Please, describe them all (open question).

- Mentoring inside organisation
- ITIL Foundations for NOC technicians, ITIL Service Capability Modules (SOA, OSA, PPO, RCV) and Managing Through Lifecycle (MALC) (ITIL Expert certification) for NOC Manager. Cisco CCNA, Attendance to NOG Forums (Network Operators Group), Communication workshops.
- We include technical training in our tenders (about the equipment or the service we buy in the tender)
- Mentoring top to bottom, technical courses of equipment vendors (Cisco, Juniper...), self-learning...
- ITIL foundations to all involved staff members.
- Trainings provided by vendors when a new equipment/software is deployed.
- ISO awareness and risk management through Cyber security training
- Network Working Group meetings at SWITCH Community.
- Cisco Academy, Mikrotik Training, in-house training
- Occasional trainings by vendors
- In most cases, training courses in-house by the providers

Shall we add them as options?

- Attendance to NOG meetings
- Cisco Academy
- ISO Training
- ITIL Training
- Mentoring inside organisation
- Mikrotik Training
- **Network eAcademy (GÉANT)**
- Training provided by vendors when new equipment/software is deployed

SurveyMonkey-friendly style

8. Performance management tools

What tools do you use for performance management?

If you don't rate it, it means that you don't use it.

12. How important is this tool for your NOC?
