Service-Oriented
Network monitoring
ARchitecture***

perfSONAR is developed by a partnership of

ESnet

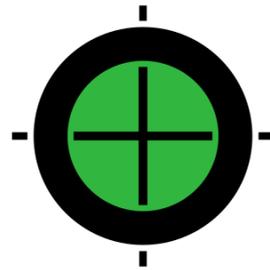

INDIANA UNIVERSITY

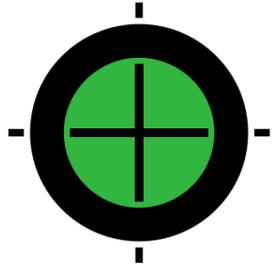

Inception

There is some debate

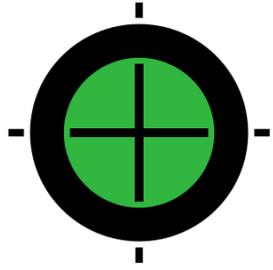

When was perfSONAR created?

First ideas

2000

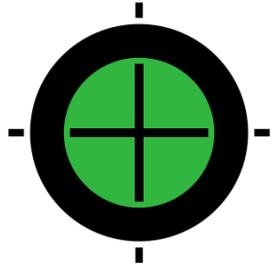

First meeting

OGF
Network
Measurement
Working
Group

2001

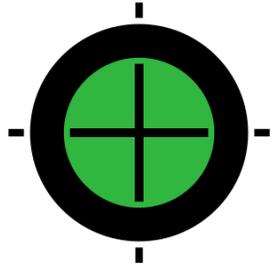

First practice groups

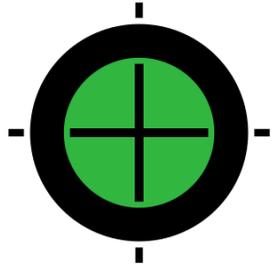

2002

Performance
Enhancement
Response
Team

First collaborative workshop

2004

First partnership

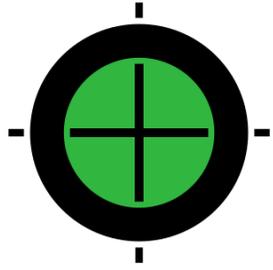

2004

2005

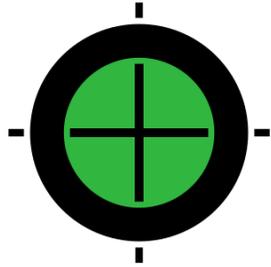

First joint presentation

2005

TERENA Conference

(Poznan)

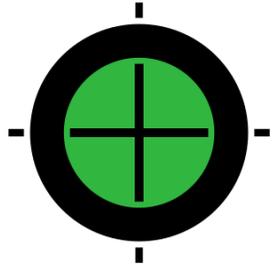

```

485 for(sum=0;sum<num_sum;sum++){
486     uint32_t    begin,end;
487
488     begin = ping_ctx.opt.numBucketPackets * sum;
489     end = ping_ctx.opt.numBucketPackets * (sum+1);
490     if(end > hdr.test_spec.npackets){
491         end = ~0;
492     }
493
494     /*
495     * Create temporary sum-session file.
496     */
497     if(ping_ctx.opt.printfiles){
498         strcpy(tfname,dirpath);
499         sprintf(startname,OWP_TSTAMPFMT,hdr.test_spec.start_time);
500         sprintf(&tfname[file_ose],"%s%s",startname,_OWPING_INC_EXT);
501         if( !(tfp = fopen(tfname,"w"))){
502             I2ErrLog(eh,"OWStatsParse: fopen(%s): %M",tfname);
503             return -1;
504         }
505     }
506     else{
507         tfp = stdout;
508     }
509
510     if( !OWPStatsParse(stats,(ping_ctx.opt.records?tfp:NULL),
511         stats->next_ose,begin,end)){
512         I2ErrLog(eh,"OWStatsParse: failed");
513         OWPStatsFree(stats);
514         return -1;
515     }

```

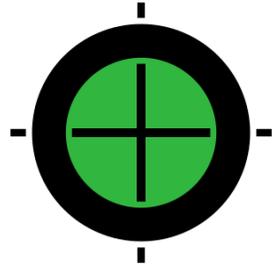

First line of code

2005

First release

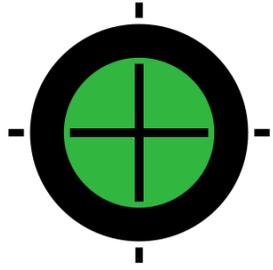

2006
v1.0

First fork

2008

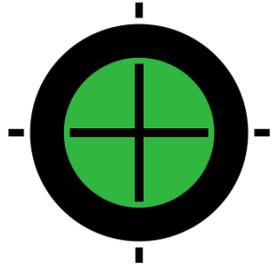

pS MDM

First 1000 deployments

2013

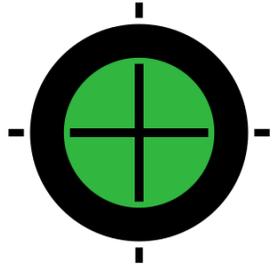

(1000 public instances)

First Debian packages

2015

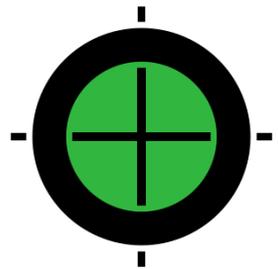

First 4.0

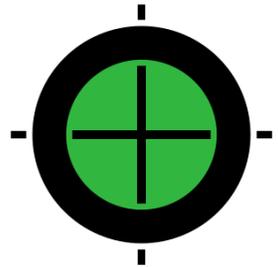

2017

(pScheduler)

All that ...

And more...

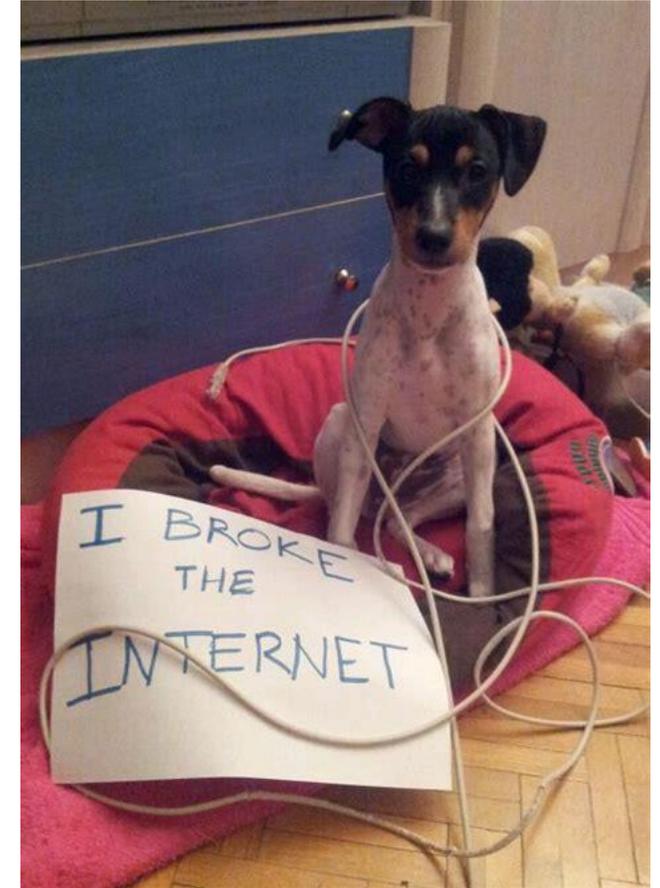

... to bring you 5.0

Already 5 years since 4.0

And multiple things going on development wise

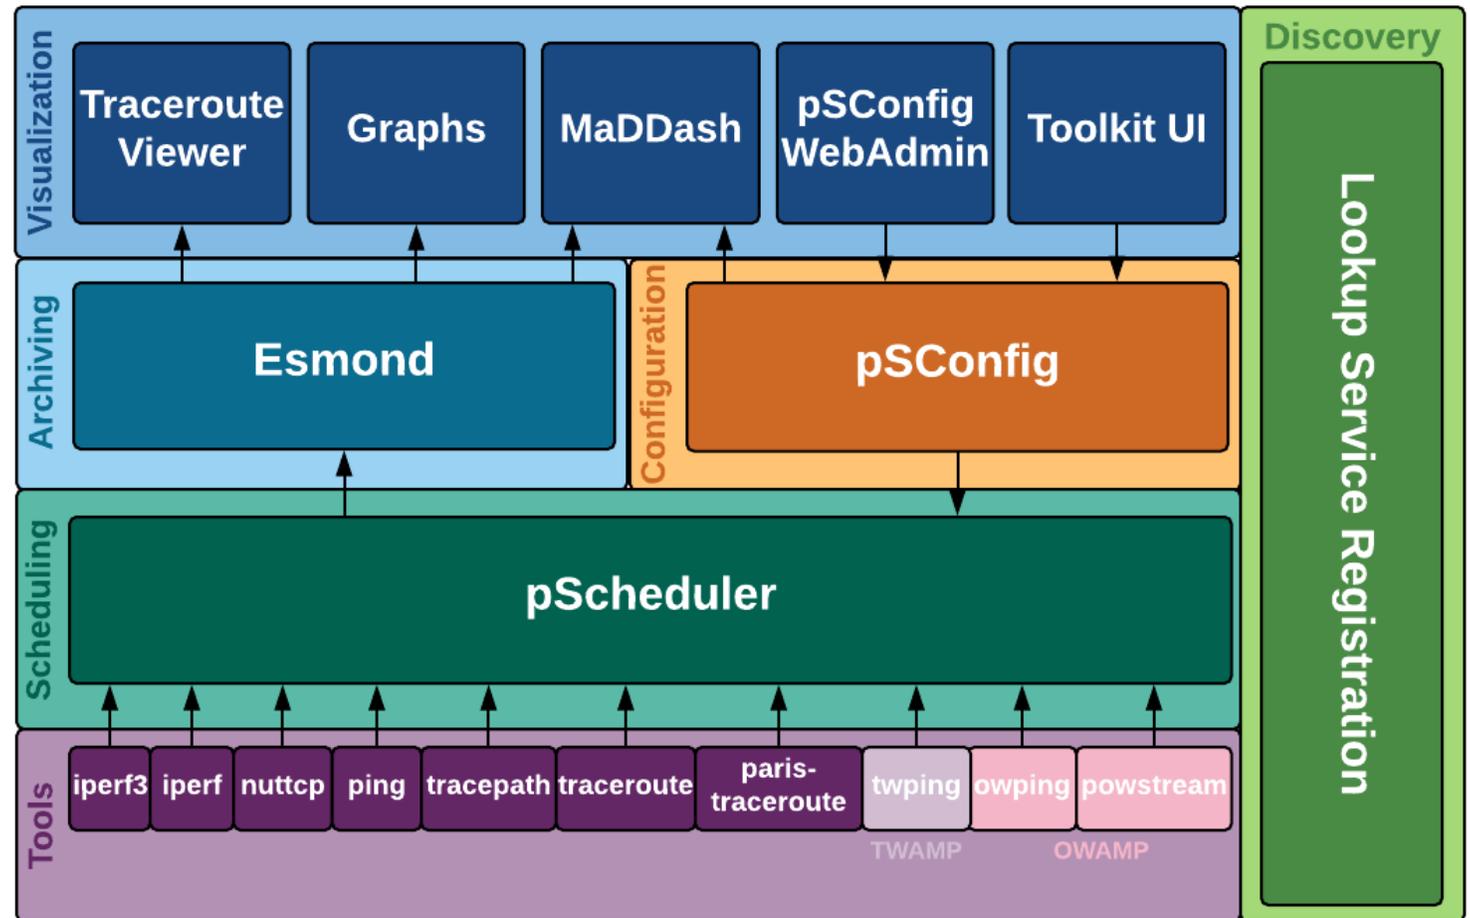

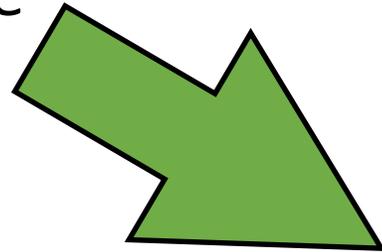

Looking closer at network problems

- Current pS usage
- perfSONAR data
 - Loss
 - Latency
 - Throughput
 - Route traces
 - Application response time
 - ...
- Correlate with other data sources
 - Interface counters
 - Flow data
 - Optical layer
 - ...

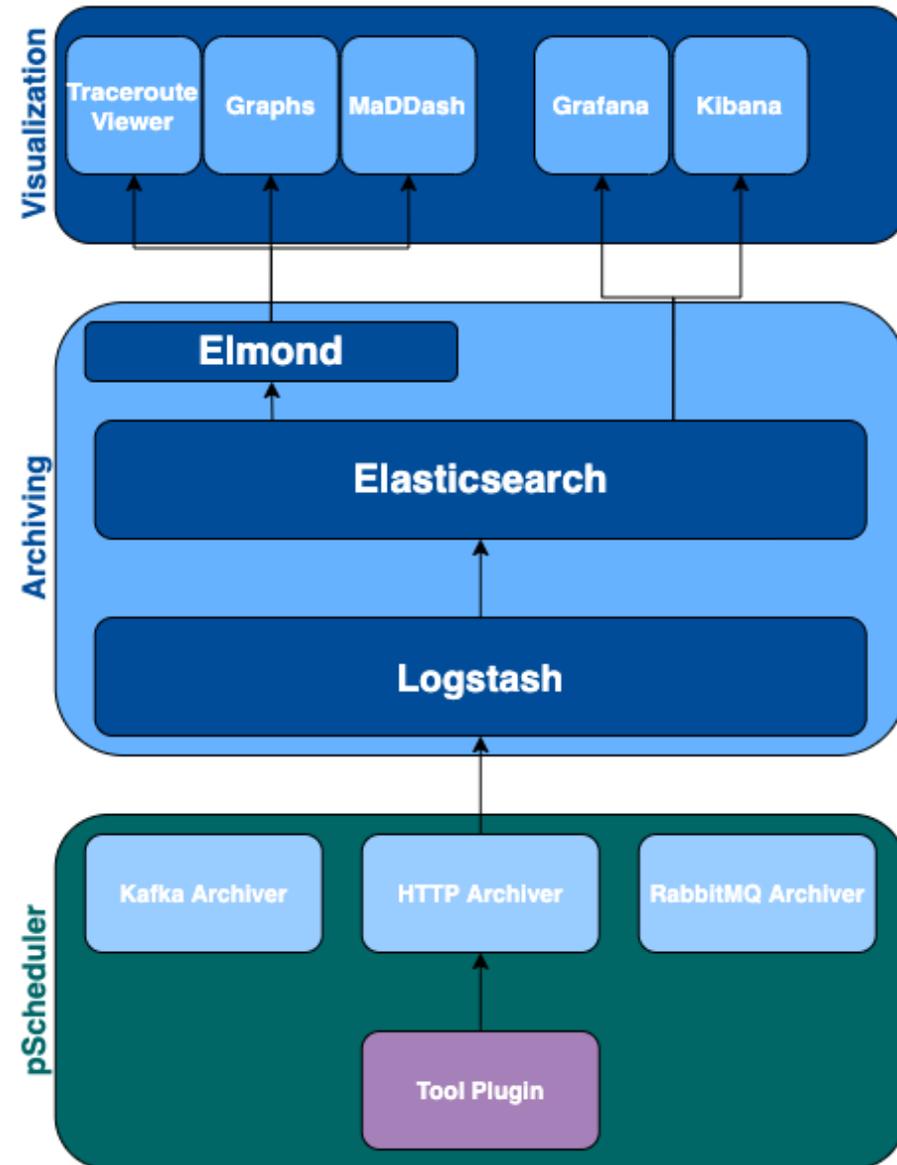

Changing the archive (backend)

- The archive
- Storing
 - Metadata
 - Data
- Using
 - Esmond

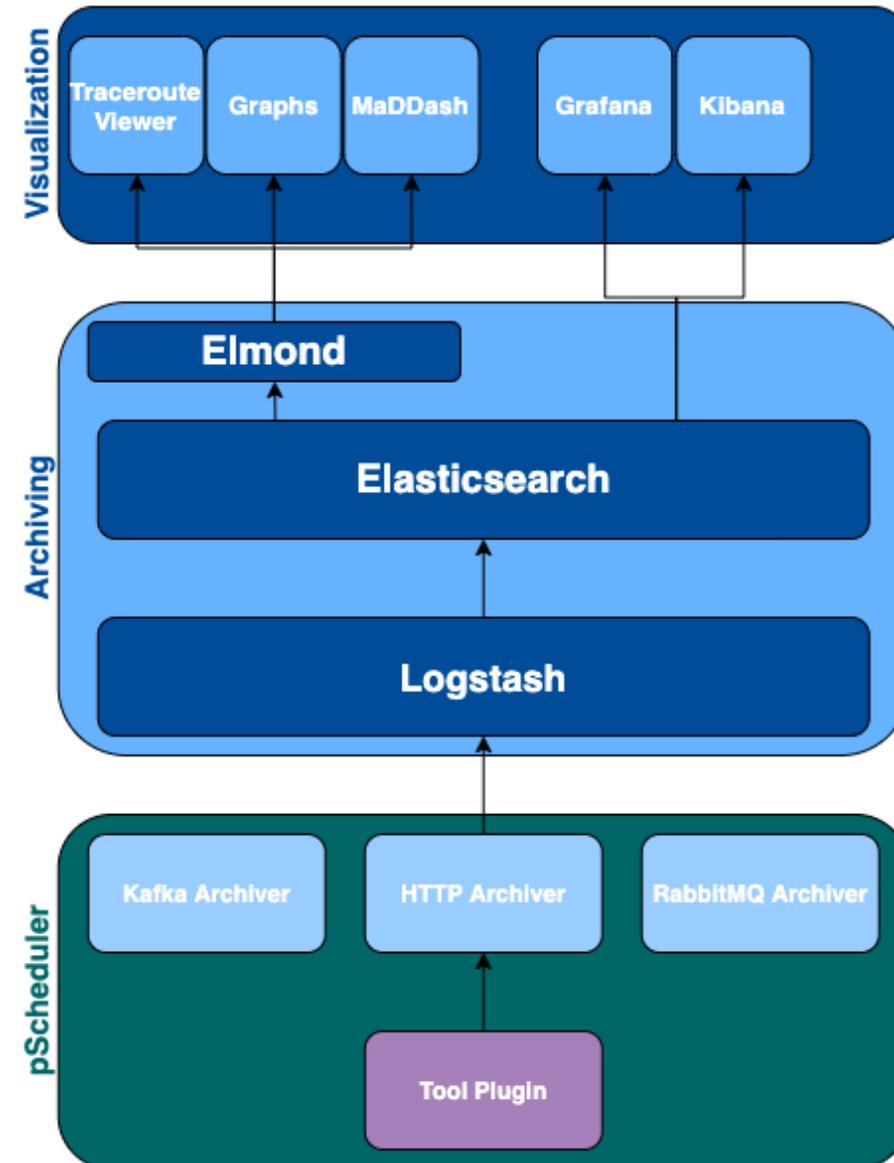

Changing the archive

- The archive
- Storing
 - Metadata
 - Data
- Using
 - ~~Esmond~~
 - Opensearch

Changing the archive

- Opening up
 - New integrations
 - New possibilities
- Backward compatible
 - Elmond
 - Same Esmond API
- Elasticsearch API
 - Grafana

Help us test it!

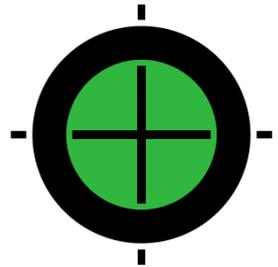

- Beta release available

perfSONAR is a partnership

https://www.perfsonar.net/collab_about.html

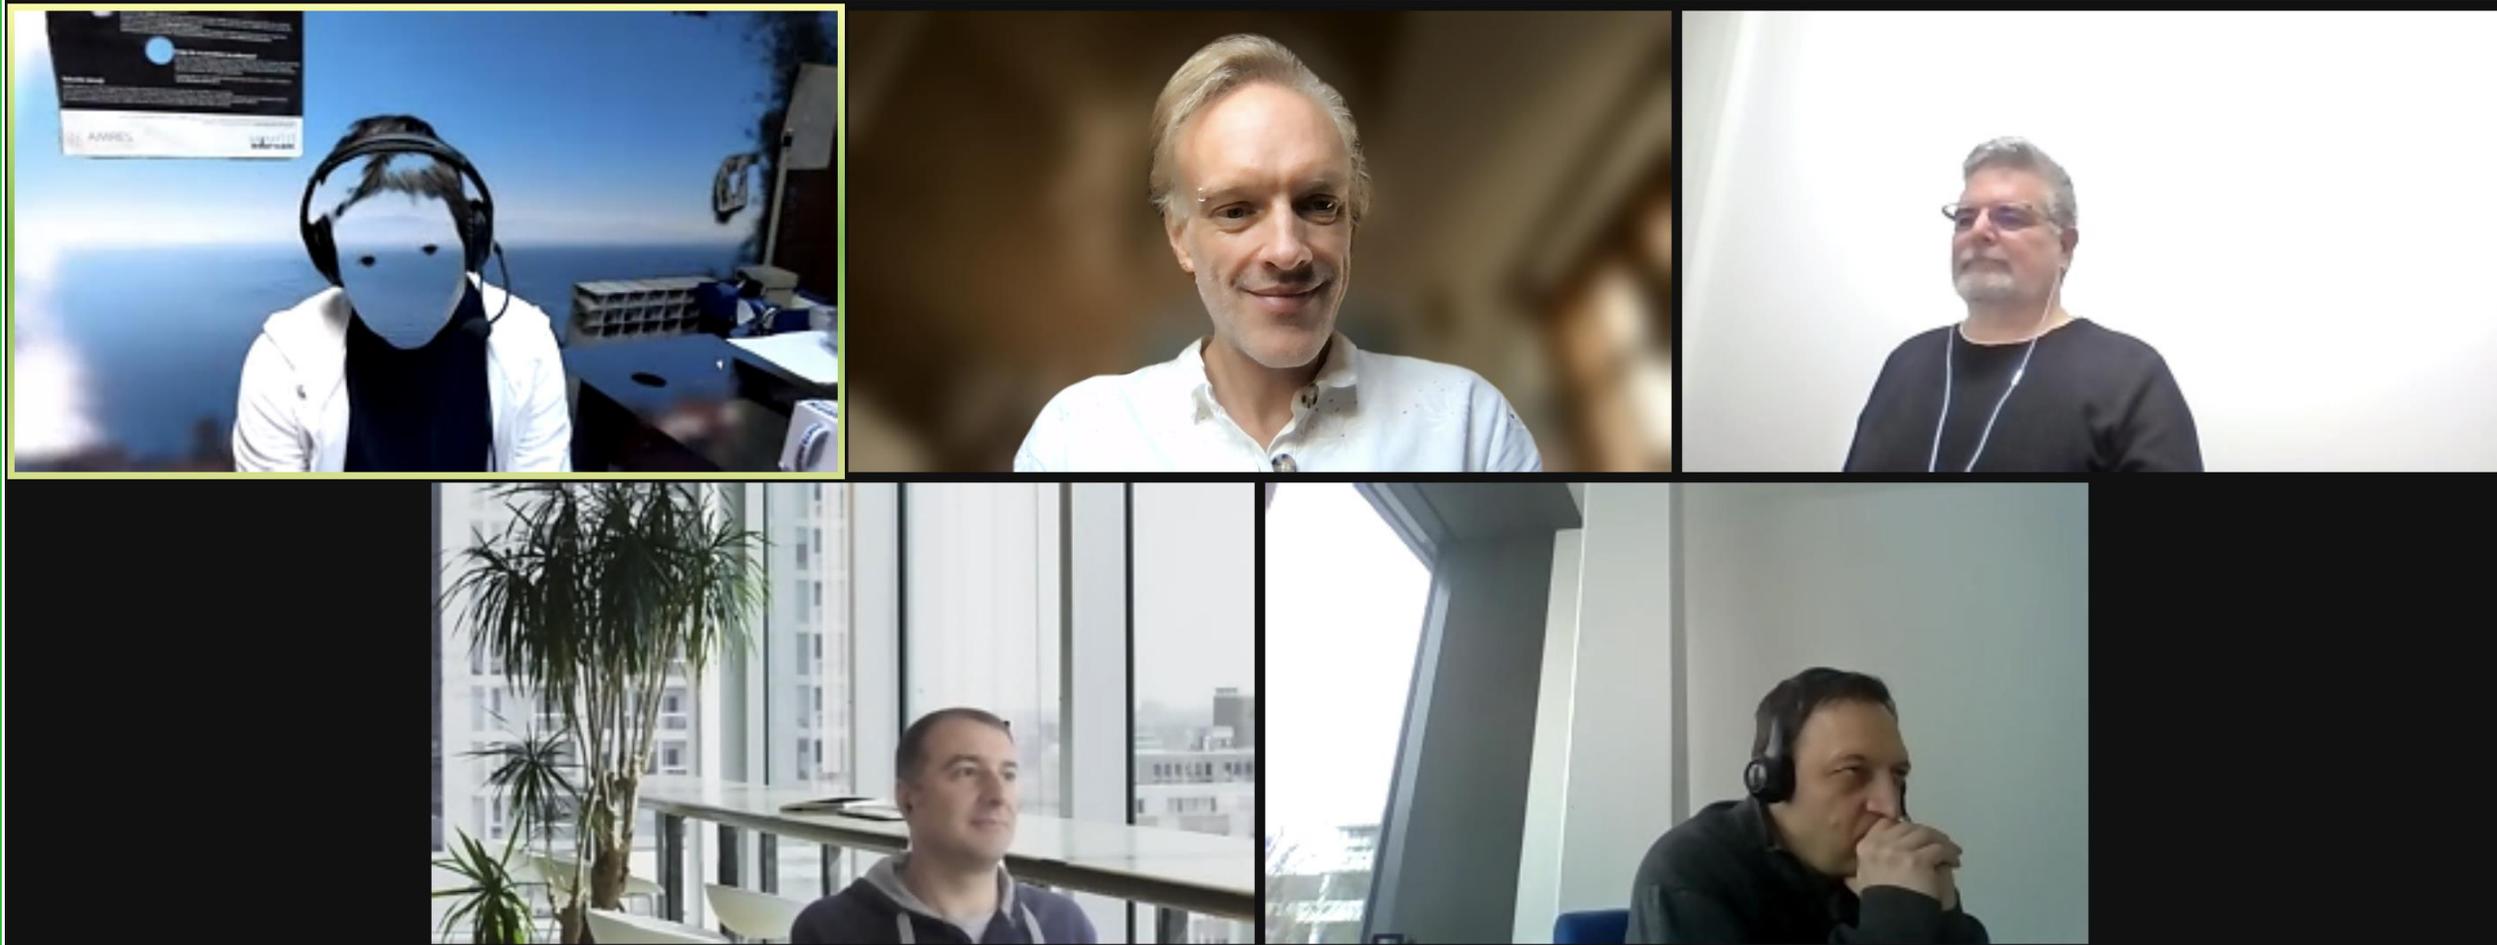

And something important...

with collaboration...

Is to have a team...

that is having fun while working!
