Public (PU)

GN5-1

Agenda

- GP4L in GN5-1
 - Develop usage/demo
 - New developments (orchestration, automation)
- Global P4 lab: GP4L
- Network Management as a Service: **NMaaS**
- Discussions/Demo

GP4L & RARE/freeRtr in a nutshell

RARE is an open source routing platform, used to create a network operating system (NOS) on commodity hardware (a white box switch).

RARE uses FreeRtr as a control plane software and is thus often referred to as RARE/freeRtr

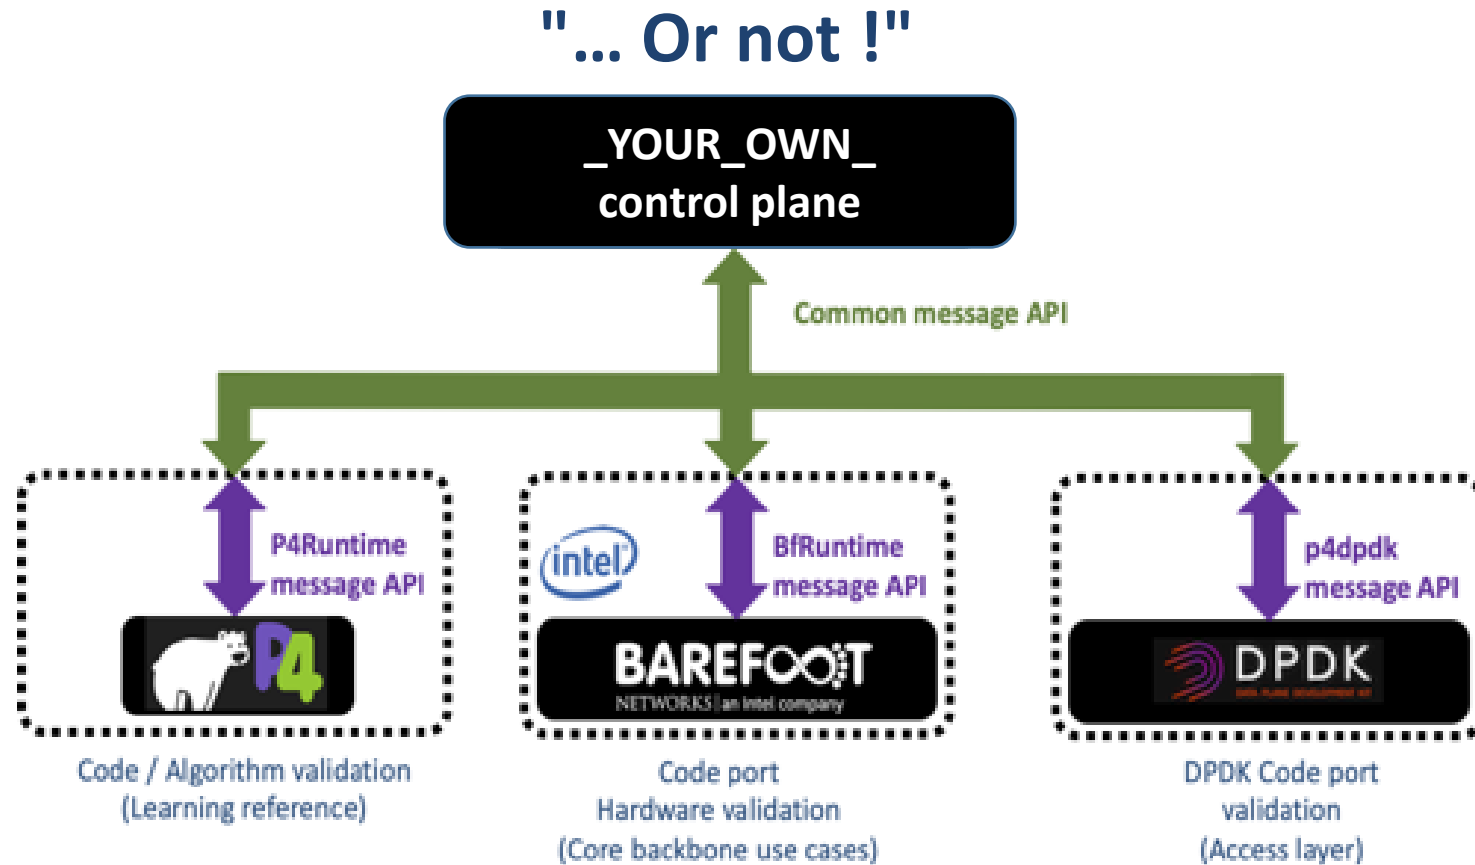

More information:
<https://wiki.geant.org/display/rare>

RARE/freeRtr in a nutshell

"One control plane to rule them all ..."

RARE/freeRtr in a nutshell

GP4L Project in GN5-1 (besides test RARE/freeRTr)

- **User community**

- Listen user community request
 - Demo wish-list
 - Problem solving approach
- GP4L as an experimentation facility
 - For representative demo
 - Used to develop new network management component

- **Developer community**

- Network orchestration (integration of NetBox, Camunda and Uptime Kuma)
- Network automation
- Network management components

Objective:

**INCREASE GP4L platform usage in both
Network usage prototyping and
facility for network development**

RARE/freeRtr feature development

- Feature development
 - Digital twin
 - Orchestration
 - Automation
 - ...
 - Please share your ideas !
- New targets (and thus new use cases)

**TOFINO-3 is dead, long live TOFINO 1 and 2 !
Dataplane programming is not only about P4 ...**

Liaison with GN5-1 WP6-T2 platform – Global P4 Lab

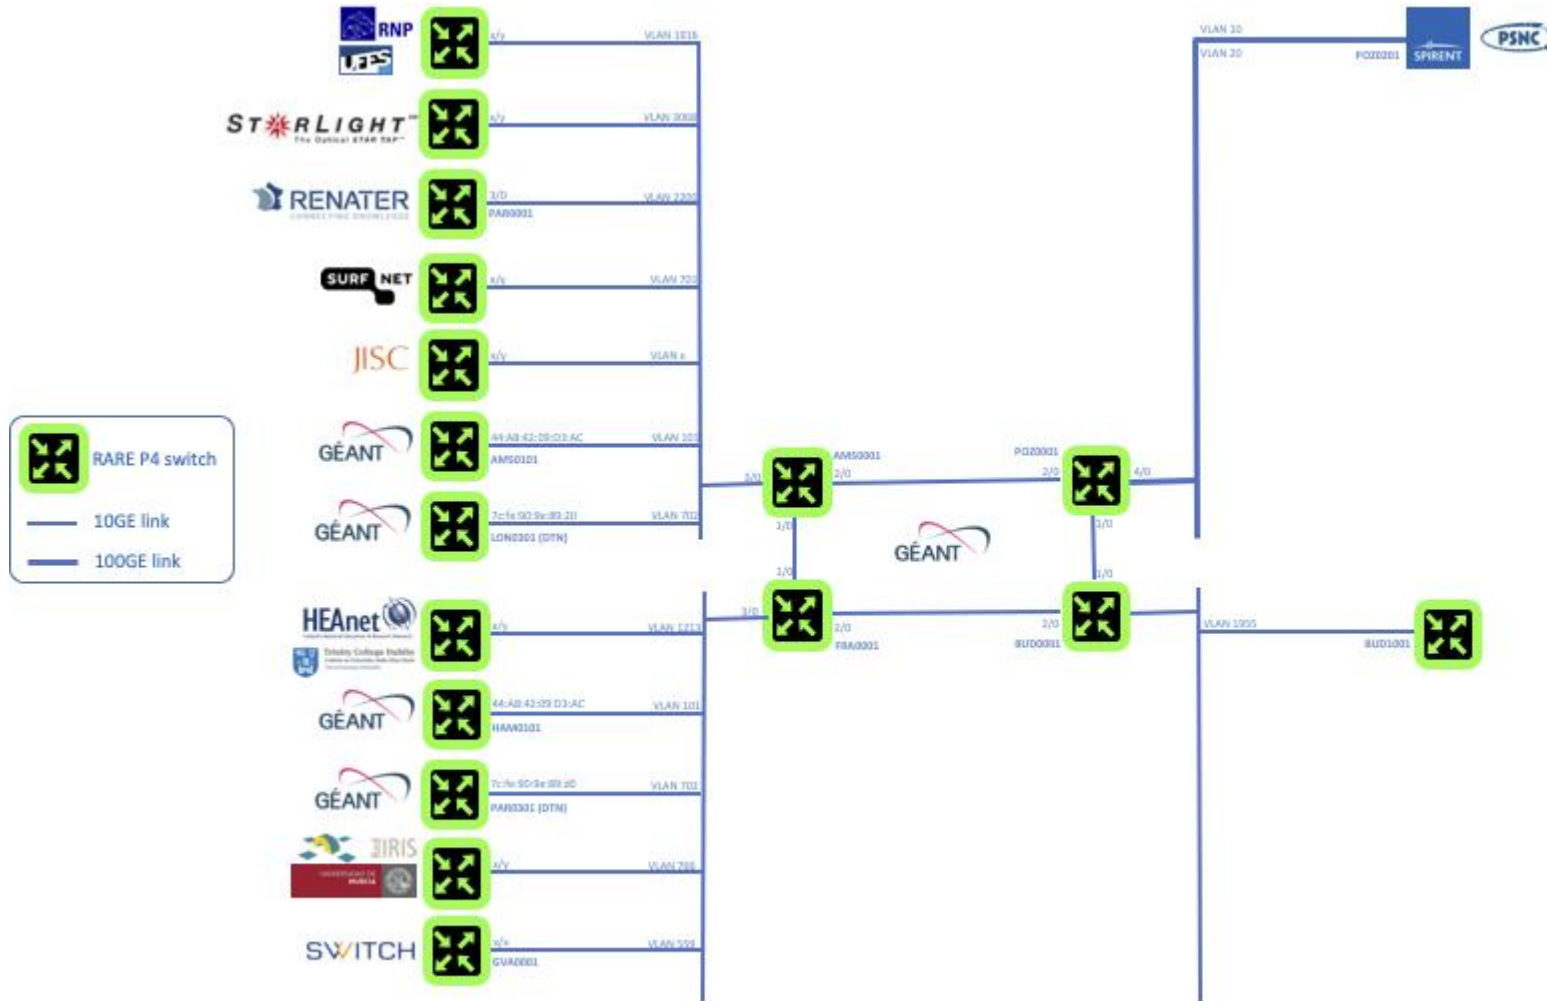

- December 2019

Liaison with GN5-1 WP6-T2 platform – Global P4 Lab

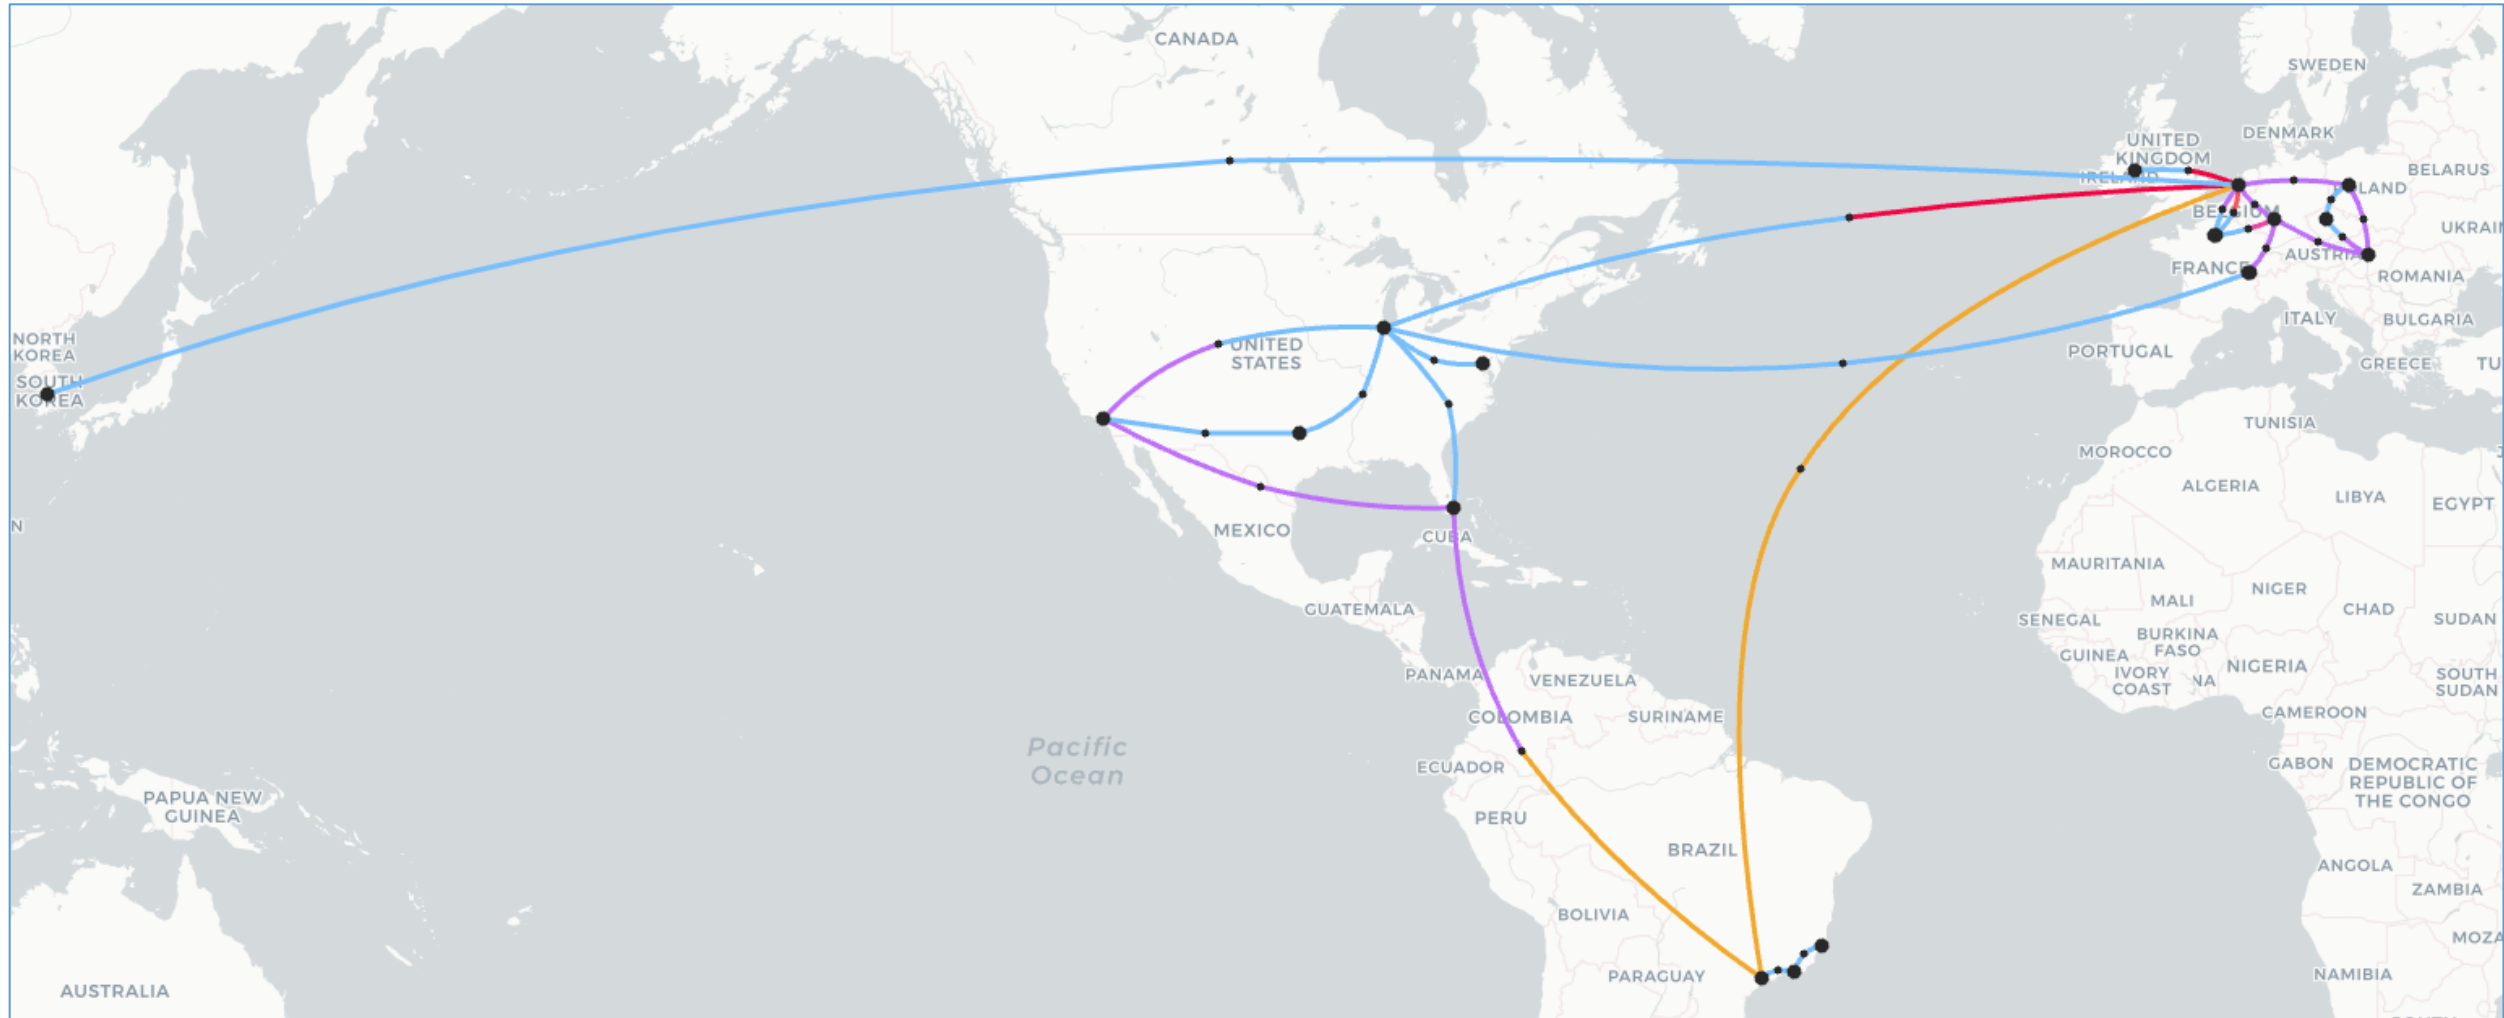

- December 2020

Liaison with GN5-1 WP6-T2 platform – **Global** P4 Lab

GP4L
GEANT P4 LAB

- December 2022 (presented to Supercomputing 2022 conference)

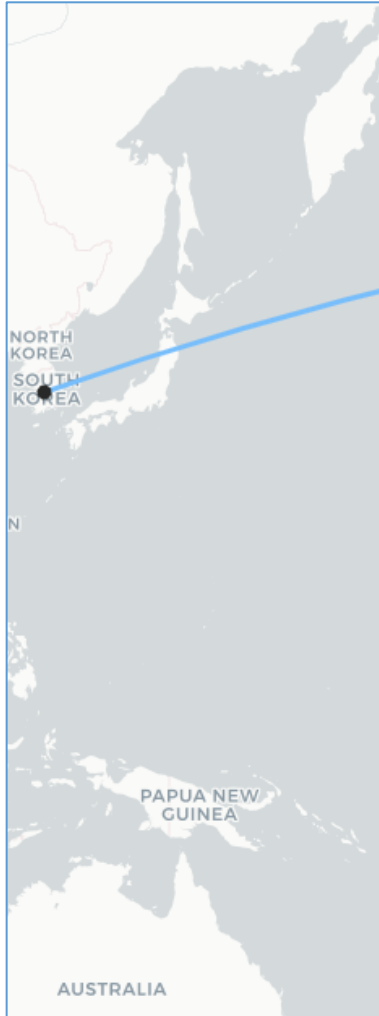

Liaison with GN5-1 WP6-T2 platform – **Global** P4 Lab

GP4L
GEANT P4 LAB

- December 2022 (presented to Supercomputing 2022 conference)

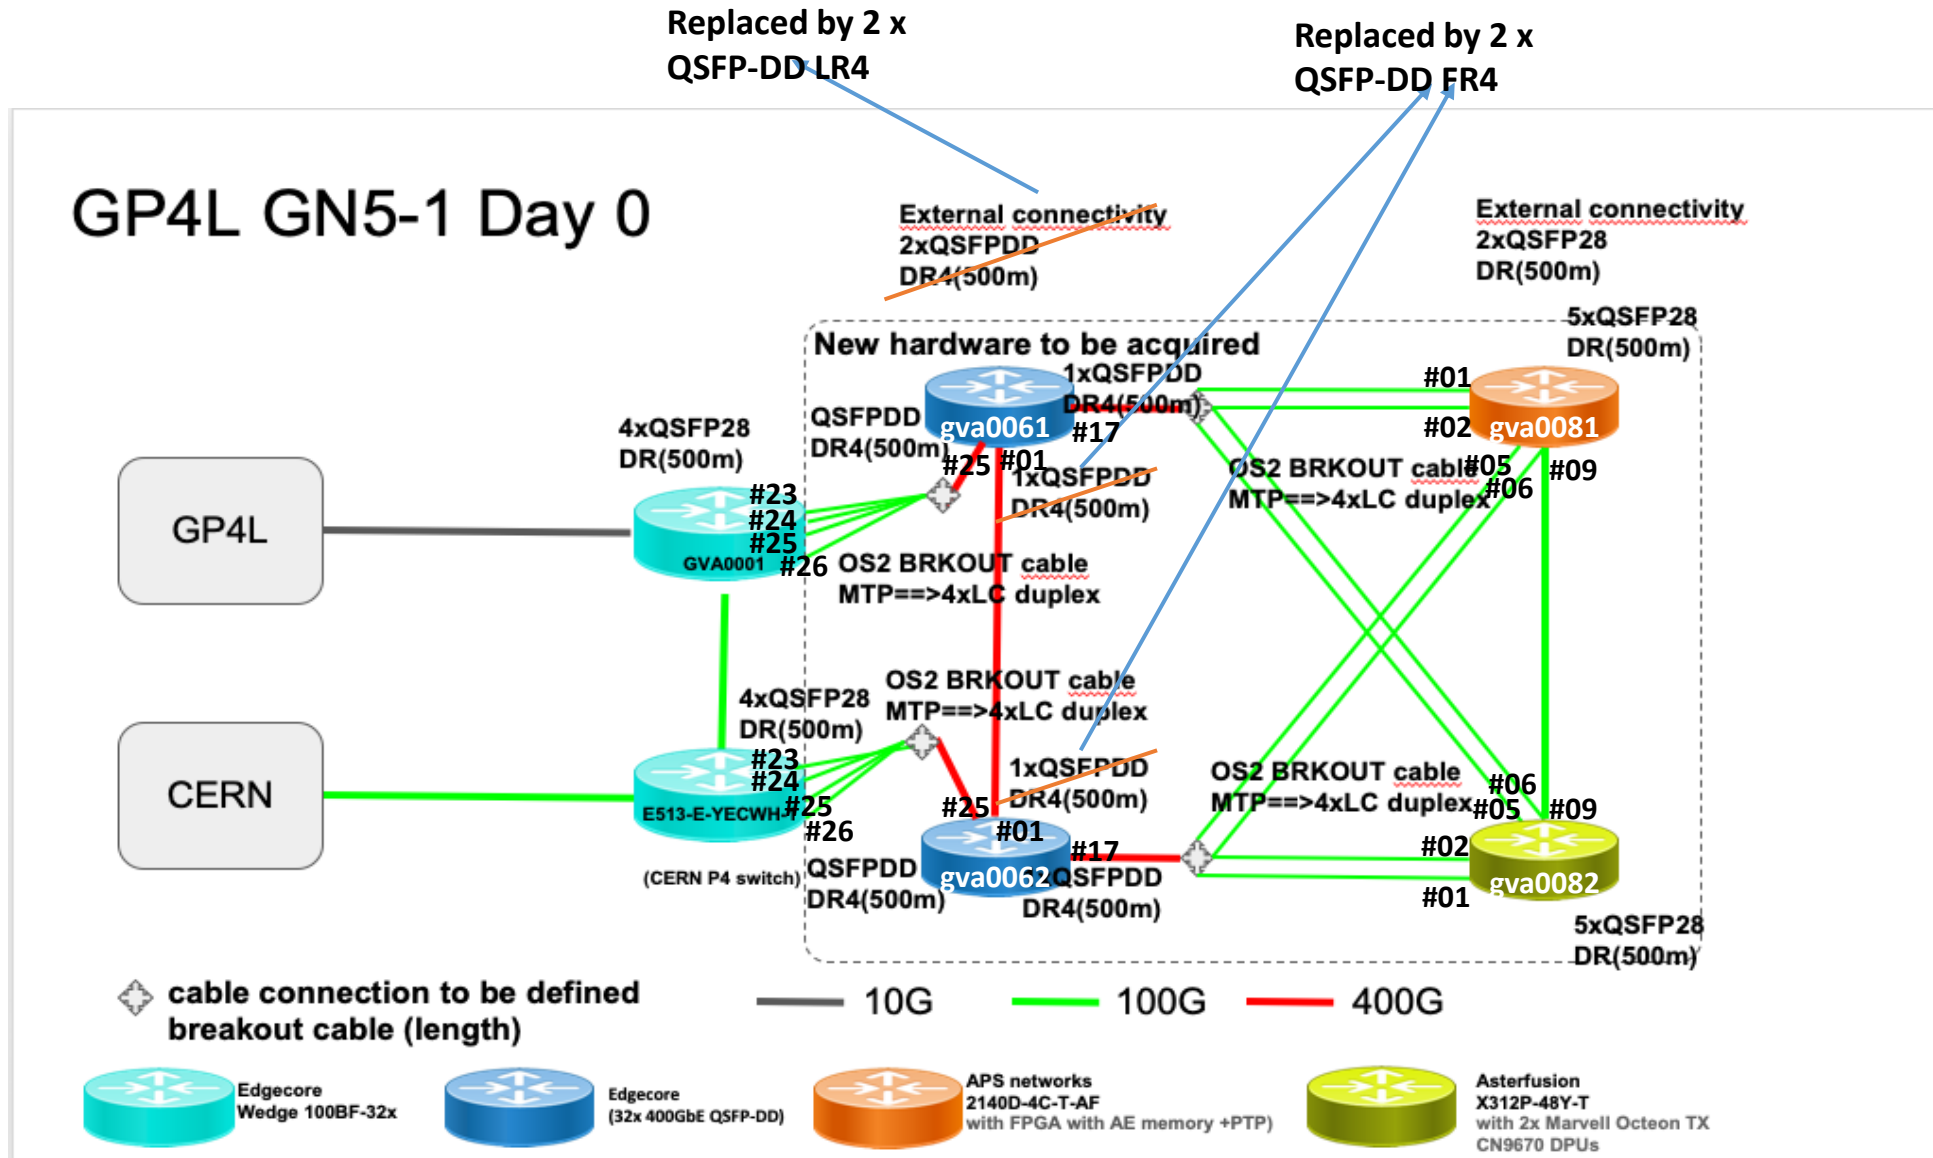

挑戦者が現れました
CHALLENGER APPROACHING

GP4L includes now an equipment in Tokyo !

GP4L extension @ CERN in Geneva

GP4L GN5-1 Day 0

GP4L new nodes from partners

- Europe

University of "Pays Basque"

New nodes from University of Murcia

Existing nodes: AMS,FRA,POZ,BUD,GVA,DUB,UMU,PAR,PRA,

- Asia

KDDI. SINGAREN, KAUST

Existing node @ KISTI

Nepal (soon ?)

- US

New nodes in CALTECH

New nodes planned in BRIDGES WAS/NYC/PAR/AMS

Existing nodes: CHI,MIA,BNA,BWU

- Africa

Prospective in southern part of Africa with UbuntuAlliance

- Latin America

SAN

Existing SAO, RIO, VIT

RARE/freeRtr Network Management as a Service

What about
GP4L
monitoring?

NMaaS Network Management as a Service

Grafana
★★★★★5
Open source analytics & monitoring solution for every database

Prometheus
★★★★★5
Monitoring system & time series database

Icinga2
★★★★★0
Scalable and extensible monitoring system

SPA Inventory
★★★★★0
Resource and Service Inventory with TMF-compliant API

Routinator
★★★★★0
RPKI Validator

WebDAV Server
★★★★★5
WebDAV Server with Git versioning

Uptime Kuma
★★★★★5
Self-hosted monitoring tool like "Uptime Robot"

NetBox
★★★★★5
Infrastructure resource modeling application

WiFiMon
★★★★★0
Wireless Crowdsourced Performance Monitoring and...

Zabbix
★★★★★0
Enterprise-class monitoring solution for networks and applications

SPA
★★★★★0
SPA for the E-Line service

Healthchecks
★★★★★0
A cron monitoring tool

Key take-away

+ NMaaS  + GP4L

CAPEX decrease dramatically

OPEX increase but:

This is not a bad thing RARE/freeRtr **empowers** local staff

Therefore it can reduce digital divide by providing an innovative networking solution at an affordable TCO

Power user or not, If you have DIY mindset (whether you are a Tier 1 NREN or not)

RARE/freeRtr is for you !

Please join GP4L & RARE/freeRtr
community !

A world map with various countries labeled. Overlaid on the map are several colored lines (blue, purple, yellow, red) representing network connections between different geographical locations. The lines connect major hubs in North America, Europe, and South America. The text 'Digital twin & ORCHESTRATION' is superimposed on the map in large red font.

**Digital twin
&
ORCHESTRATION**

RARE/freeRtr in GN5-1

**Questions
Discussions
Ideas ?**

Quick demo !

RARE/freeRtr community support

- **Community channels**

- Mailing list
 - rare-users, rare-dev
 - gn5-1-wp6-t1-rare is internal to the GÉANT project
- RARE messaging
 - IRC #freertr@DN42
 -  RARE/freeRTr
 -  rare_freerouter

- **Dissemination**

- Liaison with international WG (GNA-G, APAN, LHC, UbuntuNet alliance etc.)
- Conferences
 - SC23/24, IETF hackathon, TNC, APAN, RIPE etc.
- Would you like to host a RARE/GP4L Workshop ?

Thank You
