- OS update
- Framework update (Laravel)
- Service Provider software (Shibboleth SP and simpleSAMLphp)
- Discovery service moved to SeamlessAccess (https://seamlessaccess.org)

eduGAIN Connectivity Check Service (ECCS)
Version 2.1.0:
- Fake SP test
- Reworked the check results & ECCS status (thanks to Peter Brand and Alex Stuart)
- Repo: https://gitlab.geant.org/edugain/eccs
REFEDS Data Protection Code of Conduct ver 2.0:

- CoCo Monitor development (Coco v1 and v2 will coexist)
- eduGAIN Database support
- eduGAIN Validator support
- EARC Service Provider support
- eduGAIN documentation update (move to REFEDS)
Development

- eduTEAMS and F-Ticks integration is taking more time than expected
- It will be in production before TNC22
- eduTEAMS Virtual Organization onboarding will start in June:
  - eduGAIN deputies and delegates will be invited to register for their federation
  - eduGAIN deputies and delegates will invite federation operators
