

# The new world order for e-Infrastructures

**Michael Enrico**

Technical Coordinator

CTO, GÉANT Association (Cambridge)

TTC Meeting, Amsterdam

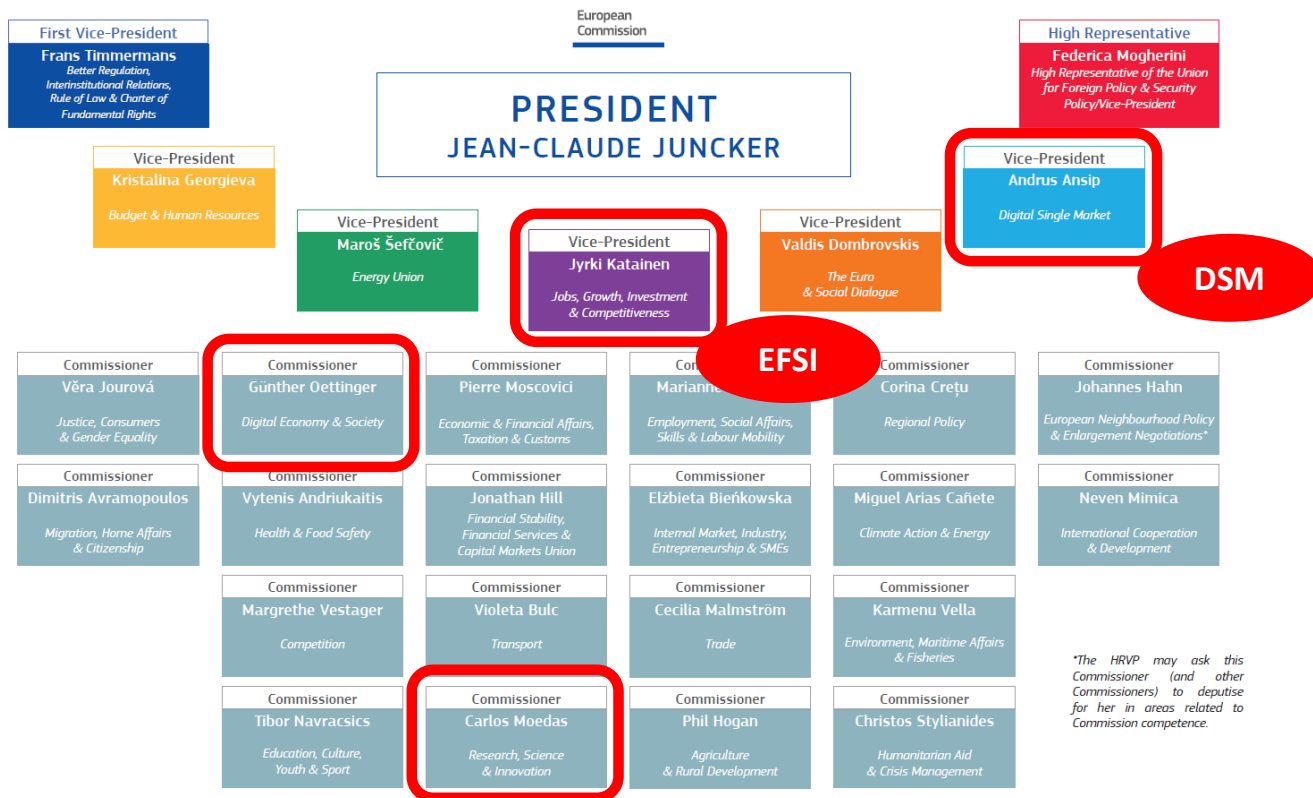

22<sup>nd</sup> November 2015

# Lots of changes

*Out with the old, in with the new*

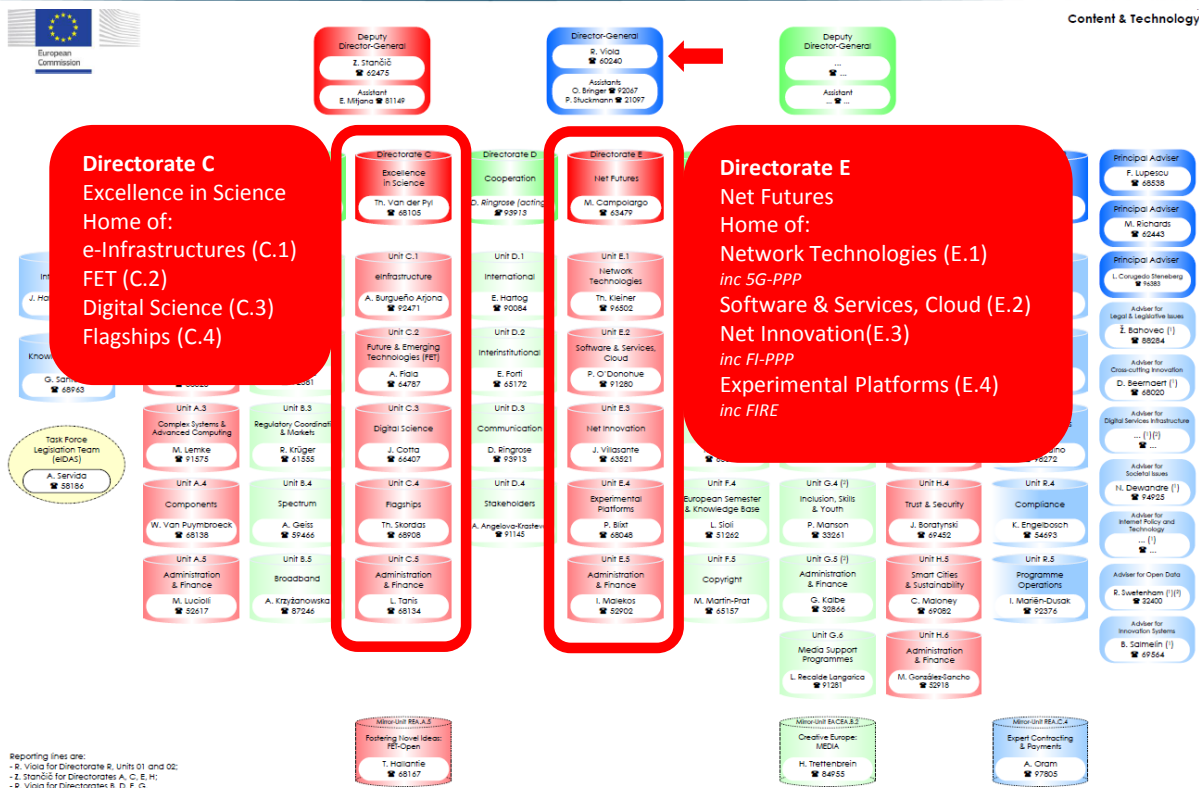

- New(ish) European Commission
- Lots of VPs with substantive cross-departmental remits
- Increasing emphasis on industrial cooperation and PPPs
- Has the funding pendulum swung back (away from R&E)?
- Changes in DG-CONNECT
- Changes in RI Programme – especially for e-Infras
- Changes for GÉANT (the project)
- Last, but not least, changes in GÉANT (Assoc)

# Many VPs

# Changes in DG-CONNECT

## Communications Networks, Content & Technology

If this doesn't  
render very well  
then try opening  
this PDF in Adobe  
Reader

Adobe Acrobat  
Document

- **“Integration and consolidation”** of e-Infrastructures including service portfolios
- Operational services, operational services, operational services
- Opening up e-Infrastructures to “new markets”

- EC focus is on combined and integrated e-infrastructures
- What will this mean in practice??
  - GEANT, EGI , PRACE, EUDAT, OpenAIRE + others will work together more often with joint priorities and goals for some projects  
e.g. **EINFRA-22-2016 (part 2) Open Call programme**
  - All e-Infrastructures will sign “collaboration” agreements with each other setting out what work will be done together
  - There will be an integration of service catalogues and new service sets  
i.e. e-Infrastructure “portfolio” of services for the end-user
  - More and more that end-user ‘may’ be commercial SMEs

- EC focus is on Operational services
- What will this mean in practice for new products/services?
  - EC have now split innovation and production services
  - Focus must now be primarily on Operational services  $\geq$  **TRL 6**
  - Blue sky research and JRA style research is funded “**elsewhere**”
  - Earlier stage innovation belongs in other parts of the work programme

## Horizon 2020 TRL definitions

- A way to formally assess the status of products
  - Provides a common understanding of technology status
- Assists Risk management
- Used to make decisions concerning technology funding
- Used to make decisions concerning transition of technology

[https://en.wikipedia.org/wiki/Technology\\_readiness\\_level#Brief\\_history\\_of\\_Technology\\_Readiness\\_Levels](https://en.wikipedia.org/wiki/Technology_readiness_level#Brief_history_of_Technology_Readiness_Levels)

- **TRL 9 –actual system proven in operational environment**
- **TRL 8 –system complete and qualified**
- **TRL 7 –system prototype demonstration in operational environment**
- **TRL 6 –technology demonstrated in relevant environment**
- TRL 5 –technology validated in relevant environment (industrially relevant environment in the case of key enabling technologies)
- TRL 4 –technology validated in lab
- TRL 3 –experimental proof of concept
- TRL 2 –technology concept formulated
- TRL 1 –basic principles observed

- Parts most affecting e-Infras...

Code	Description	Actions	Budget	Closing Date
INFRADEV-04-2016	European Open Science Cloud for Research	RIA	€10M	June 16
INFRAIA-01 thru 02	Integrating & opening RIs of European interest	RIA	€200M	March 16 & 17
EINFRA-11,12,21,22	e-Infrastructure calls	RIA	€122M	various
INFRA supp-03-2016	Support to policies and international cooperation for e-Infras	RIA	€3M	March 16

Code	Description	Actions	Budget	Closing Date
EINFRA-11-2016	PRACE	RIA	€15M	March 16
EINFRA-12-2017	Data & distributed computing e-Infras for Open Science	RIA	€40M	March 17
EINFRA-21-2017	Platform-driven innovatioin	RIA	€20M	March 17
EINFRA-22-2016	User driven innovation (4 parts)	RIA	€21M	March 16

Part	Description	Actions	Budget (/prop)	Closing Date
Part 1	Support specific requirements of initiatives addressing societal challenges	RIA	€2-3M	March 16
Part 2	Stimulate the innovation potential of “innovative actors” – i.e. SME-focussed <u>joint</u> Open Call	RIA	€5-6M (x1)	March 16
Part 3	Pan-European ID fed services	RIA	€2.5-3M (x1)	March 16
Part 4	Open access repos & publishing platform infrastructure for prototyping new services in support of open science	RIA	€1-2M	March 16

# INFRASUPP-03-2016 – Support to policies and international cooperation for e-Infras

Part	Description	Actions	Budget (/prop)	Closing Date
(a)	RIAs for International Co-operation on high-end e-Infra reqs – <b>SKA</b>	RIA	€2-3M	March 16
(b)	CSAs for International Co-operation and Policy Dev...	CSA		
(b) Part 1	...major societal challenges	CSA	€0.5-1M	March 16
(b) Part 2	...eIRG secretariat	CSA	€0.5-1M	March 16
(b) Part 3	...dissemination (including joint service catalogue)	CSA	€1-1.5M	March 16
(b) Part 4	...foresight roadmap	CSA	€0.3-0.4M	March 16

## Need to look elsewhere... (for TRL < 6)

- Self funding
  - National funding
  - ICT programme
  - FET programme (?)
  - European Fund for Strategic Investments (EFSI) (???)
- Ideal for bringing together, coordinating, influencing, steering (?) etc under auspices of TFs/SIGs

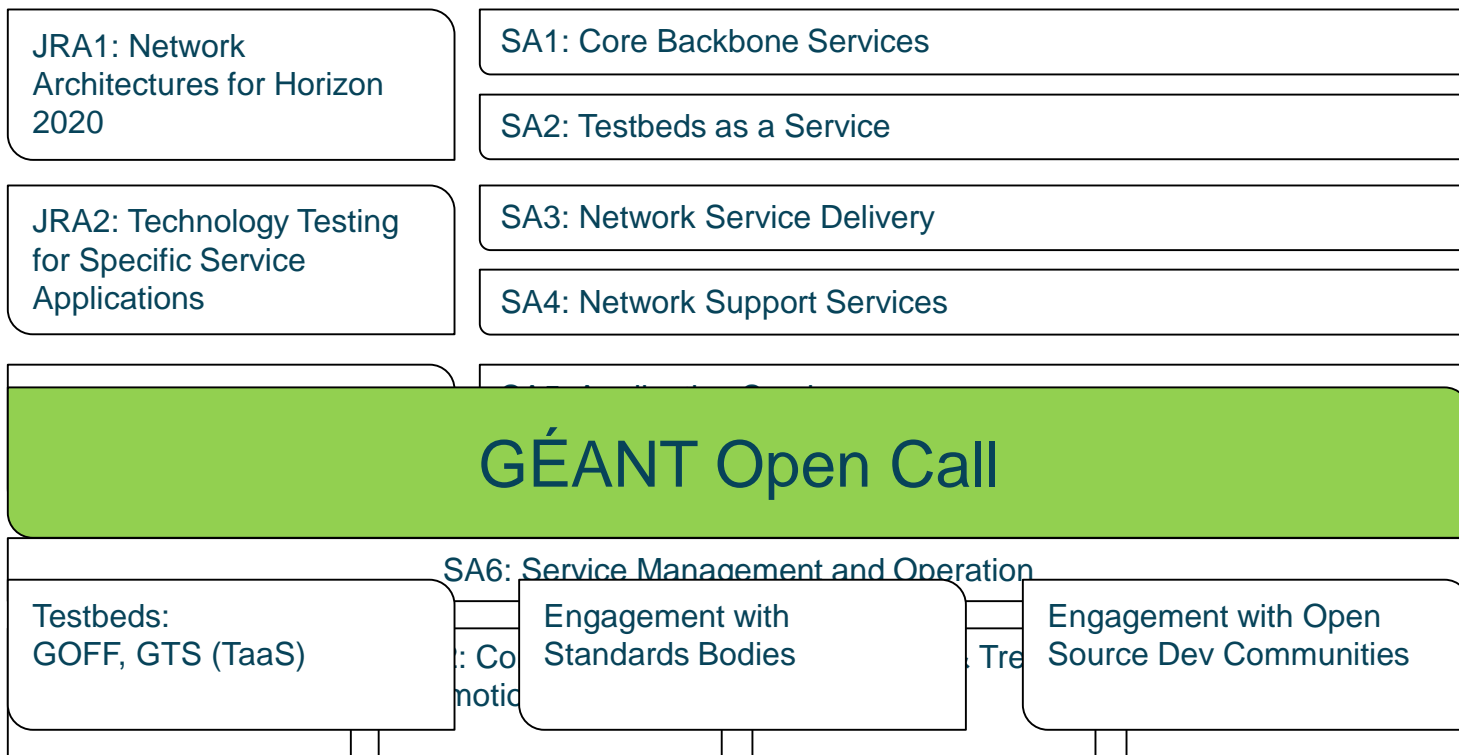

# What does this all mean for a joint e-Infra “Open Call” programme?

- First a quick reminder of the context of the previous (**and first**) GÉANT Open Call...

# The Context of our (GÉANT) last Open Call

## The “GÉANT Innovation Programme” (was RTD focussed)

# What does this all mean for a joint e-Infra “Open Call” programme??

	2014/15 (part of GN3 Plus)	2016/17 (EINFRA-22-2016 part 2)
<b>Funding</b>	€3.3m EC funding for GEANT (€4.2m programme in total)	€6m EC funding for all e-infras
<b>Focus</b>	All	Primarily SMEs and Industry
<b>Average project size</b>	€100-350k per project	€60k - €150k per beneficiary
<b>Type of work</b>	Early or late stage (many were TRL 0-6)	<u>Strictly</u> TRL6 and above only
<b>Type of project</b>	<ul style="list-style-type: none"><li>- Using e-infrastructure resources e.g. testbeds</li><li>- Providing services to e-infrastructures</li></ul>	<p>SMEs as:</p> <ul style="list-style-type: none"><li>- New <b>users</b> of e-infras</li><li>- Service <b>providers</b> for e-infras</li><li>- <b>Innovation generators</b> for e-infras</li></ul>

- Working with other e-Infras much more closely and collaboratively on shared programmes and projects
- Working with innovation clusters for the first time
- “Innovating with SMEs”/working with more SMEs:
  - Enabling them to benefit from GÉANT’s network and services
  - Using SME skills to improve and create entirely new “user driven” GÉANT products/services
- Not just SMEs (for Open Call) but also open to small consortia of universities and/or NRENs **WITH** SMEs bidding in “supply” side of open call

## ICT WP 2016-17

*My view on which parts of the ICT WP could be of interest to R&E networking community...*

Code	Description	Actions	Budget	Closing Date
ICT-5-2017	Customised and low energy computing	RIA	€24M	April 17
ICT-6-2016	Cloud computing (4 parts)	RIA	€35M	April 16
ICT-7-2017	<b>5G PPP Research and validation of critical technologies and systems</b> (1) wireless access and radio network architecture/technologies, (2) high capacity elastic - optical networks and (3) the "Software Network"	RIA	€100M	Sept 16
ICT-8-2017	5G PPP Convergent Technologies	IA	€40M	Sept 16
ICT-11-2017	Collective Awareness Platforms for Sustainability and Social Innovation	IA	€9M	April 17
ICT-12-2016	FI-PPP continued	IA	€15M	April 16
ICT-13-2016	FIRE	RIA	€25M	April 16

Code	Description	Actions	Budget	Closing Date
ICT-14 thru 18	Big Data PPP	various	€150M	various
ICT-22-2016	Technologies for learning and skills	IA+RIA	€31M	April 16
ICT-33-2017	Innovation procurement networks	CSA	€15M	April 16
ICT-34-2016	PCP Open	PCP	€25M	April 16
ICT-37-2016	China – collaboration on FI	CSA	€1M	Jan 16
ICT-38-2016	Mexico – collaboration on ICT	RIA & CSA	€1M	Jan 16
ICT-39	International partnership building in low and middle income countries	IA	€13M	April 17

Code	Description	Actions	Budget	Closing Date
EUJ-1 thru 3	EU-Japan joint calls on 5G, IoT/cloud/big data & ICN testbeds	RIA	€7M	Jan 16
EUB-1 thru 2	EU-Brazil joint calls on cloud computing & IoT pilots	RIA	€7M	Mar 17
EUK-1 thru 3	EU-South Korea joint calls on 5G, IoT & fed cloud for mobile	RIA	€6M	Jan 16

Thank you
