

BRIGHTEN THE FUTURE OF T&I INNOVATION

JOIN THE TIM PROGRAMME

**Foster local
T&I expertise**

**Strengthen
relation with
member
institutions**

**Meet young
talents
and invite them
into your
world**

**Expand portfolio
of services**

**Learn from
experienced
SMEs**

TIM offers NRENs an opportunity to be involved in the development of new T&I products and services for the European NREN world, by funding facilitation and mentoring of talented young professionals.

TIM offers young professionals the opportunity to join the development of cutting-edge solutions in T&I field through a paid professional internship with NRENs (can be combined with thesis writing).

TIM runs twice per year for selected T&I Topics to be investigated and prototyped. Use the QR code to learn more about the programme and the list of topics.

Interested? Come and talk to us.
