Maintaining trust relationships in a growing eduGAIN environment

Please find slides and Mentimeter results here:
Baseline expectations preliminary results

Baseline meetings took place over the last couple of months. You can find the notes here: https://wiki.refeds.org/display/GROUPS/Baseline+Expectations+Working+Group

Four categories: SPs, IdPs, Federation Operators and Interfederation Operators.

Current results: https://docs.google.com/document/d/1u0XuvPRFKH5RaDEeqdph3jyjgNzbWAR4Q1y0GzNkCro/

You can also subscribe to the mailing list: https://lists.refeds.org/sympa/info/federation-baseline and the eduGAIN Slack channel: #baseline.

Support / Security/ Operations team update

Support: new manuals and updated "How to join eduGAIN as a Service Provider". Comments are very welcome. More work on proactive tickets. Haven’t seen a significant month on month change despite changes in working environments.

Operational: improvements on the technical site, eduGAIN database and the metadata validator - issues with validation currently on the radar for the OT were shared earlier in the meeting.

Security: drafted eduGAIN Security Incident Response Handbook. In collaboration with SIRTFI. Handbook will be shared with eduGAIN SG and REFEDS alongside a proposal to create an eduGAIN CSIRT.

Members discussed how this works with other security initiatives and whether there could be synergies with GÉANT CERT. The plans are still at a very early stage so there are many opportunities to work out how to make these relationships work. We need to be mindful of potential information sharing with countries that are embargoed by other countries within eduGAIN.

F-Ticks for eduGAIN pilot

Miro gave a demo of f-ticks for eduGAIN: https://f-ticks.edugain.org/. Members are invited to share statistics with the team by contacting support@edugain.org. Details are on the website. 5 federations are currently participating.
