Mission Statement

The aim of this group is to collect the Adobe Acrobat Connect Pro users in the European Research and Education Networking (NREN) community and facilitate them to communicate, collaborate and share information on the Adobe Connect webconference setups, feature requests, bug reports, as well as the use cases and deployment status. Beside Adobe Connect, the group accommodates a general discussion forum on all kind of webconferencing platforms.

For registration please [click here](#) or contact: Peter Szegedi at TERENA szegedi@terena.org
