[GLAD needs your input on GN4.3 training](#)

[Nadia Sluer](#) posted on Feb 14, 2020

GLAD invites all work package leaders and task leaders to a (virtual) meeting to discuss the learning needs of your Work Package participants. To support you in delivering project results we aim to create a comprehensive GN4.3 Learning Programme that will consist of effective and diverse learning solutions. Let's arrange to meet (online) so that we can talk directly what is relevant and important for you to learn, new skills to develop and/or existing skills to refresh and upgrade....
