

FaaS Training

In order for Federation operators interested in using FaaS to get up to speed with using FaaS service, FaaS team is organising FaaS training events. This trainings are organised as face to face courses that provide a foundation in the technical and practical aspects of operating a federation, registering Identity and Service Providers, connecting to interfederation (eduGAIN) and using FaaS service.

So far we have organised two training events:

- [November 2014, Belgrade, Serbia](#)
- [April 2015, Vienna Austria](#)

You can find here training materials from the Vienna training:

Federation 101

- [Part 1 - AAI](#)
- [Part 2 - Federation](#)
- [Part 3 - Interfederation](#)

Metadata 101

- [Part 1 - Essentials](#)
- [Part 2 - Upper layer](#)

Federation Operator Experiences

- [Resource Registry](#)
- [Federation Operator Games](#)

FaaS offer and user interface

- [FaaS offer](#)
- [FaaS training exercise book](#)

If there is enough interest shown, there is possibility to organise a 3rd training event. If you are interested, please [contact us](#).
