## NGI TRUST

The NGI\_Trust project supports the development of a human-centric Internet. by developing a stronger European ecosystem of researchers, innovators and technology developers in the field of privacy and trust enhancing technologies.

From January 2019 to May 2020, NGI\_TRUST ran three rounds of [open calls](#) in order to select and providing financial support to the best projects submitted by third parties in a competitive manner.

50+ projects have now been selected and the NGI\_Trust consortium is now providing technical coaching, intellectual property and business mentoring support to the funded projects.

A short-presentation of NGI TRUST is available here.

### [Frequently asked questions \(FAQs\) for the 3rd Open Call](#)

Vladimir Cvijanovic posted on Apr 28, 2020

What is the maximum amount one organisation/individual can be granted? Over the three calls (lifetime of the NGI\_TRUST project), a single organisation/individual cannot be awarded more than €200,000 for one or more projects (for example, €50,000 for a type 1 project followed by €150,000 for a type 2). Regarding eligible costs we understand that for Type 2, NGI\_Trust would cover 66% of costs,...

### [CASPER and DECIDE hitting the headlines](#)

Vladimir Cvijanovic posted on Apr 24, 2020

NGI\_Trust is aimed at funding projects that ensure the Internet remains a secure and resilient system, especially during crisis <https://www.ngi.eu/blog/2020/04/03/next-generation-internet-human-centric-tech-in-times-of-crisis/>. NGI\_Trust funding is already bearing fruit and hitting the headlines with our grantees DECIDE and CASPER. Both have been featured in NGI's publication 'THE PEOPLE BUILDING THE INTERNET OF TOMORROW' <https://ngi...>
