

# 27-29 March in Amsterdam, hosted by Nikhef

The 4th WISE Workshop is kindly hosted by **Nikhef**!

## When and where

27 Mar, 13:00 - 29 Mar, 13:00, 2017

## Venue

**Nikhef**, Science Park 105, 1098 XG, Amsterdam. There are direct train connections from Schiphol Amsterdam Airport (30 min, 4 times per hour). For travel information and directions: <http://www.nikhef.nl/en/about-nikhef/contact/how-to-reach-nikhef/>.

To use public transport, you can buy the all-in-one [Amsterdam Travel Ticket \(multi-lingual page\)](#) (1 day: €15, 3 days: €25, both including the trip from the airport) or use regular public transport chipcard ("OV Chipkaart") options. Remember to always check in *and check out again* when using public transport in the Netherlands.

Amsterdam has plenty of accommodation, both in the centre and close to Nikhef and the Science Park. Some suggestions can be found [on the Map](#) and can be booked either directly or through a booking agency such as booking.com.

Sessions	Rooms	Occupancy	Video link (Vidyo courtesy of CERN)
Plenaries and SCIV2-WG	H3.31	50	<a href="https://www.nikhef.nl/grid/video/?m=wise">https://www.nikhef.nl/grid/video/?m=wise</a>
STAA-WG	H3.20	18

	11:30	<a href="#">Next steps and Closing, Photo</a>
	12:00 - 16:00	Steering Committee Session (Room: H2.20)

## Working Group Sessions

### STAA Working Group Session.

Over the last year the workgroup STAA has been collecting references to existing training and awareness programs. Part of the goals of this working group is to set up a guidance for a training and awareness program. The aim is to make a first version of this guidance during the workshop in Amsterdam. It must identify target groups, their training and awareness needs, and identify initial and recurring training and awareness activities. Where possible there can be references in this guidance to existing training and awareness programs. We might also discover blank spots where no training is yet available, training material is outdated or in a difficult to use format (like materials in non-english language).

### SCIV2 Working Group Session.

The aim of the SCIV2-WG full day at the workshop will be to produce a close-to-final Version 2 of the SCI document together with a draft (perhaps not quite so final) version of the accompanying guidance document. We will also discuss/agree what Endorsement/Acceptance by the various Infrastructures means as we work towards a signing ceremony with at least some Infrastructures at TNC17 in Linz.

### RAW Working Group Session.

The aim of the RAW-WG full day at the workshop will be to produce a first draft of the risk management template to be shared among sites and infrastructures.
