

Get access to the TERENA installation

This page tells you how to get access to the TERENA Trusted Cloud Drive test instance deployed at TERENA Secretariat offices.

In order to access the web portal (<https://tc2.terena.org>) your federated account needs to be whitelisted.

- 1) Go to <https://tc2.terena.org/simplesaml>
- 2) Click "Authentication" and then "Test configured authentication sources"

Note: If your account is white-listed and you still have problem accessing the service, please contact your IdP people and ask them to look at the [IdP configuration](#).

Be aware of the limitations

The TERENA pilot installation has the current limitations as follows:

- 100 GB local data storage (on a 1TB volume)
- 20 GB metadata store (inside the VM)
- 5 GB single filesize limit
- No limitation on the number of concurrent users
- Native Windows Explorer support is in progress...
- Shared folder functionality is in progress...

Taking these limitations into account, about 20 test users can get access to the service!

Limitations are subject to change.

List of WebDAV clients

Windows:

- *Native is in progress...*
- BitKinex

MacOS:

- *Native*
- Transmit
- Cyberduck

Android:

- WebDAV File Manager
- WebDAV Navigator Lite

iOS:

- WebDAVNav+
- Keynote
- Pages
- Goodreader

How-to
