

EaPConnect's OpenAire Training

4 - 5 June 2019, Kyiv, Ukraine

Description

This two-day interactive hands-on workshop will present different OpenAIRE services and tools and will help the EaPConnect project partners to start using them. It will also help to understand what Open Science means and how NRENs could practice it - for example, how to set up a National Open Access/Research Data Management/Open Science Desk, how to write a Data Management Plan, how to comply with Horizon 2020 and other funders Open Science requirements, etc. Collaborations between EaPConnect and OpenAIRE projects will also be discussed.

AGENDA

Day 1: OpenAIRE services and tools
