NGI_Trust

NGI TRUST

The NGI_Trust project supports the development of a human-centric Internet by developing a stronger European ecosystem of researchers, innovators and technology developers in the field of privacy and trust enhancing technologies.

From January 2019 to May 2020, NGI_TRUST ran three rounds of open calls in order to select and providing financial support to the best projects submitted by third parties in a competitive manner.

57 projects have now been selected and the NGI_Trust consortium is now providing technical coaching, intellectual property and business mentoring support to the funded projects.

A short-presentation of NGI TRUST is available here.

About us

The partnership for innovative technological solutions to ensure privacy and enhance trust for the human-centric Internet.

Partners:

European Future Innovation System (EFIS) Centre

European Business & Innovation Centre Network (EBN)

Kantara Initiative Europe

GÉANT

Fraunhofer IAO

Coaching Call 2

[Tender for an Impact Assessment of the NGI_Trust portfolio](#)
Alasdair Reid posted on Feb 16, 2021
The NGI_Trust consortium set ambitious objectives to contribute to resolving a series of issues or exploring solutions that enhance privacy and trust for the Next Generation Internet. From 300 proposal received, 57 projects were selected for funding and awarded a total of just over €5.6m euro.…

NGI_Trust Showcase demonstrates project innovations
Nicole Harris posted on Dec 14, 2020
From February 2019 to May 2020, the NGI_Trust project https://wiki.geant.org/display/NGITrust/NGI_Trust ran three Open Calls to fund the development of a human-centric Internet through privacy and trust enhancing technologies. These calls attracted a significant number of applications and NGI_Trust was able to fund 56 projects https://wiki.geant.org/display/NGITrust/Funded+Projects focused on relevant innovations. Now that all of the funding has been allocated,…
