

Linking and unlinking identities in eduTEAMS

 This page explains how to link more accounts/identities, within your profile, after being successfully registered on the eduTEAMS platform, as well as how to unlink accounts/identities.

1. In order to link an account with the existing one, you should navigate to your profile on the platform <https://mms.eduteams.org/profile/>.
2. Choose and login with the organisation's Identity Provider which you used during the registration process.

3. You will be redirected to the eduTEAMS profile page. Choose "My linked accounts" in the left navigation bar.

4. Click the "Link a new account" button. You will be redirected to the screen where you need to select the organisation's Identity Provider.

Email	Federated identity	Login	Last usage

5. At this step, you should click the “Choose another” button and choose the Identity Provider of another account which is supposed to be linked.

6. After successful login, accounts are linked and the success message is displayed.

7. Click the “Leave” button.

8. You can now see the list of accounts in your profile.
