

# WG 1: Inventory for Security Officers (L1)

This is the page of the SIG-ISM Working Group 1, which is working on creating an Inventory for European NREN and other R&E community Security Officers.

The group is lead by Linda Cornwall <[Linda.Cornwall@stfc.ac.uk](mailto:Linda.Cornwall@stfc.ac.uk)> (STFC).

If you would like to join this working group or subscribe to the mailing list, please contact Sigita Jurkynait <[sigita.jurkynait@geant.org](mailto:sigita.jurkynait@geant.org)> (GÉANT).

This information is public, European NRENs and other Research communities should enter any information they wish to make public in their NREN table.

Name	Type of NREN or community and country	Link to public web information	Security Emergency contact	Link to NREN description and table
ACOnet	NREN Austria	<a href="http://www.aco.net">http://www.aco.net</a>		<a href="#">ACOnet Inventory Entry</a>

DFN	NREN Germany	<a href="https://www.dfn.de/en/">https://www.dfn.de/en/</a>	cert (at) dfn-cert . de	<a href="#">DFN</a>
EGI	International Project/Computing Infrastructure	<a href="https://www.egi.eu/">https://www.egi.eu/</a>	security (at) egi . eu incident report: abuse (at) egi . eu	<a href="#">EGI Inventory Entry</a>
EUDAT	The EUDAT Collaborative Data Infrastructure (or CDI) consists of a <b>network of nodes</b> that provide a range of services for for upload and retrieval, identification and description, movement, replication and data integrity, plus some additional services that are needed to operate the infrastructure. The <b>nodes</b> are essentially <b>data centres</b> (or computer centres) that have a <b>data repository</b> and that provide software services to manage the stored data – for example, storing data, searching for data, or adding metadata to the data. In an EUDAT context, these centres are known as <b>service providers</b> . A data centre that (primarily) serves a specific research discipline (like DKRZ, the German Climate Computing Centre, which supports climate research) is known as a <b>thematic service provider</b> , while a centre that provides services for different research communities (such as the CSC-IT Center for Science in Finland, which supports research in a wide range of areas) is known as a <b>generic service provider</b> . <Many of the largest scientific data centres within Europe are service providers within the context of EUDAT	<a href="https://www.eudat.eu/">https://www.eudat.eu/</a>	security at eudat eu	<a href="#">EUDAT Inventory Entry</a>
GÉANT				
HEAnet	HEAnet is Ireland's National Education and Research Network, providing Internet connectivity and associated ICT services to education and research organisations throughout Ireland, including all primary and post-primary schools.	<a href="https://www.heanet.ie">https://www.heanet.ie</a>		<a href="#">HEAnet Inventory Entry</a>
IUCC	NREN Israel	<a href="https://www.iucc.ac.il">https://www.iucc.ac.il</a>		<a href="#">IUCC inventory Entry</a>
Jisc	Jisc provides digital solutions for UK education and research. Jisc operates the UK's NREN Janet.	<a href="https://www.jisc.ac.uk/">https://www.jisc.ac.uk/</a>		<a href="#">Jisc Inventory Entry</a>
NORDUnet	NORDUnet supports the nordic NREN's through infrastructure, peering, media services and hosting	<a href="http://www.nordu.net">www.nordu.net</a>	cert (at) nordu . net	<a href="#">NORDUnet Inventory Entry</a>
RESTENA	RESTENA Foundation provides network services for all public and private institutions and organisations involved in the field of education and research, and connects them to other pan-european academic and research networks, as well as to the Internet.  The Foundation also coordinates Internet resources nationally, managing LU domain names and actively participating in the operation of the neutral platform for the exchange of Internet traffic LU-CIX.	<a href="https://www.restena.lu/restena/en/EN-Index.html">https://www.restena.lu/restena/en/EN-Index.html</a>		<a href="#">RESTENA Inventory Entry</a>
RHnet	RHnet is a limited company, founded with the sole aim of enhancing the level of communication within the Icelandic university and research community, and serve as its gateway to international networks. Its objective is to link together Icelandic universities and research institutions by means of an high capacity computer network, and supply services in the field of computer communications, both domestically and internationally.	<a href="http://www.rhnet.is/english/">http://www.rhnet.is/english/</a>		<a href="#">RHnet Inventory Entry</a>
RNP - Brazilian NREN	RNP provides to its clients a modern and high-performance network service, allied with communication services and distance collaboration applications portfolio that supports its education and research activities. It is present in all the states, through 27 Points of Presence, which form the backbone of the national academic network, <a href="#">the Ipê network</a> .  It is an optic network infrastructure, to which 1.237 campuses and units in the capital cities and in the states' countryside are connected and through which they exchange a large volume of data and information in a worldwide level. Such organizations that make up RNP are the main higher education institutions and producers of knowledge and innovation in Brazil, encompassing mostly universities, institutes and research units, at a federal and state level, teaching hospitals and museums.	<a href="http://www.rnp.br">http://www.rnp.br</a>  <a href="https://www.rnp.br/en">https://www.rnp.br/en</a> (English)		<a href="#">RNP Inventory Entry</a>

SA NREN	<p>The roles and responsibilities of the de facto South African NREN (SA NREN) are distributed between the South African National Research Network (SANReN) Competency Area (CA) at the Council for Scientific and Industrial Research (CSIR) and the Tertiary Education and Research Network of South Africa (TENET).</p> <p>The SANReN CA is responsible for the design, acquisition and roll-out of national and international capacity for the SA NREN, as well as the development and incubation of advanced services. It forms part of a comprehensive South African government approach to cyberinfrastructure, geared at ensuring the successful participation of South African researchers in the global knowledge production endeavour.</p> <p>TENET's main purpose is to secure, for the benefit of South African universities and associated research and support institutions, Internet and Information Technology services. TENET is a service organisation and is committed to service excellence and to services that are strongly aligned and consistent with the organisational requirements of the user community. TENET operates the SANReN Network under the terms of a Collaboration Agreement with the CSIR.</p>	<a href="http://www.sanren.ac.za">http://www.sanren.ac.za</a>  <a href="http://www.tenet.ac.za">http://www.tenet.ac.za</a>	csirt (at) tenet . ac . za	SA NREN (SANReN /TENET) Inventory Entry
SURF	<p>SURF is the collaborative ICT organisation for Dutch education and research. SURF offers students, lecturers and scientists in the Netherlands access to the best possible internet and ICT facilities. SURF operates the Dutch NREN and the federated identity management system.</p>	<a href="https://www.surf.nl">https://www.surf.nl</a>	cert (at) surfcert.nl	SURF Inventory Entry
SWITCH	<p>SWITCH is operating the Swiss NREN and is providing identity and specific IT services to the education &amp; research community in Switzerland. In addition we are operating the registry for .ch and .li and are providing security services to education &amp; research, registry and a group of Swiss banks.</p>	<a href="https://www.switch.ch">https://www.switch.ch</a>		SWITCH Inventory Entry
UNINETT AS	<p>UNINETT AS is the parent company of the UNINETT Group, and develops and operates the Norwegian national research and education network. This is a high-capacity computer network interconnecting about 200 Norwegian educational and research institutions and more than 300 000 users, as well as giving them access to international research networks. UNINETT is owned by the Norwegian Ministry of Education and Research. We are a neutral party, and the business is run non-profit.</p>	<a href="https://www.uninett.no/">https://www.uninett.no/</a>		UNINETT Inventory Entry
