Attribute Release Training for Federation Operators, 15 June 2015

The goal of the training is to assist identity federation operators in deploying attribute release practices for the Home Organisations and Service Providers in their federations.

The training covers:

- GÉANT Data protection Code of Conduct (CoCo)
- REFEDS Research and Scholarship Entity Category (R&S)
- Case presentations from several federations with different technical architectures

Target Audience

The training is for people who are responsible for the operation and development of academic SAML-based identity federations. In particular, attendance of the training is recommended for federation operators of eduGAIN Member federation.

Date and place

The training took place on June 15th, 2015, at 9.00-12.30 (GMT+1)

TNC2015 conference venue, Porto, Portugal. Room C.

Archived video stream

- First session 9:00-10:45, 1h 38min
- Second session 11:15-12:25, 1h 4min
