Discussion items

Time	Item	Who	Notes
10min	SWAMID-profile Mini-Fed example on 'new' oidcfed-python lib	Davide Vagheti Roland Hedberg Sclifos Constantin	<ul style="list-style-type: none">• Davide tried it: it seems 'unstable' at times• Davide and Constantin built a docker-file; https://github.com/Tehnari/oidc-swamid-federation-docker• Davide Vagheti will create a web page/form to handle the metadata (entity information) for the MDSS for this mini fed; as separate app that will write the keys and info into the right directories
50min	Agenda OIDC-fed-day at TNC		<ul style="list-style-type: none">• Introduction on OIDC Federation standard (why do we need this? some technical infos on the standards draft) --> Roland• OpenID Connect Federation Profiles (simple, SWAMID/Amsterdam) --> Roland• AS' profile https://www.linkedin.com/pulse/future-identity-federations-andreas-solberg/ --> Andreas; Maarten will inform him• How to model Policy Frameworks (Sirtify, CoCo...)? (as federations?, as attributes?...) ... We should discuss the question how we could model this but more how the authorities want to have this. This could change because oidc-fed is more flexible in this than SAML. ---> Davide• Status-Update for Software:<ul style="list-style-type: none">◦ Shib-Extension --> Janne◦ Python libraries --> Roland◦ oob/swamid profiles POCs --> Roland◦ AppAuth; Android and IOS --> Elena• Pilot: What is already there? What do you need to run a pilot? What do you think is missing? --> Maarten
