OIDCfed (GN4-2 JRA3 T3-1A) 2018-06-01 Meeting notes

Date

01 Jun 2018

Attendees

- Steffen Klemer
- Davide Vaghetti
- Maarten Kremers
- Roland Hedberg
- Janne Lauros
- Henri Mikkonen
- alexandru cacean
- Sclifos Constantin
- Juha Hopia

Discussion items

Time	Item	Who	Notes
10min	SWAMID-profile Mini- Fed example on 'new' oidcfed-python lib	Davide Vaghetti Roland Hedberg Sclifos Consta ntin	 Davide tried it: it seems 'unstable' at times Davide and Constantin built a docker-file; https://github.com/Tehnari/oidc-swamid-federation-docker Davide Vaghetti will create a web page/form to handle the metadata (entity information) for the MDSS for this minifed; as separate app that will write the keys and info into the right directories
50min	Agenda OIDC-fed-day at TNC		 Introduction on OIDC Federation standard (why do we need this? some technical infos on the standards draft)> Roland OpenID Connect Federation Profiles (simple, SWAMID/Amsterdam)> Roland AS' profile https://www.linkedin.com/pulse/future-identity-federations-andreas-solberg/> Andreas; Maarten will inform him How to model Policy Frameworks (Sirtify, CoCo)? (as federations?, as attributes?) We should discuss the question how we could model this but more how the authorities want to have this. This could change because oidefed is more flexible in this than SAML> Davide Status-Update for Software: Shib-Extension> Janne Python libraries> Roland oob/swamid profiles POCs> Roland AppAuth; Android and IOS> Elena Pilot: What is already there? What do you need to run a pilot? What do you think is missing?> Maarten

Action items

Davide Vaghetti will create a web page/form to handle the metadata (entity information) for the MDSS for this mini fed; as separate app that will write the keys and info into the right directories
Maarten Kremers will invite Andreas to talk about his oidc-fed ideas
Maarten Kremers will sent invitation mails for OIDCfed-day at TNC to all relevant mailing lists
