

4th SIG-NGN Meeting

Wednesday 15th & Thursday 16th
January 2020, Geneva, Switzerland

SIG-NGN is the Special Interest Group on Next Generation Networks.

This meeting is the fourth meeting of the SIG and hosted by **CERN** in Geneva.

Next Generation Networking for Science

The 4th SIG-NGN meeting take place at CERN on the 15th and 16th January 2020, and is co-located with a two-day workshop on networking for LHC and High-Energy Physics. This SIG-NGN meeting is an opportunity for two groups focused on advanced, high-performance networking to work together, and therefore the theme for this SIG-NGN is Next Generation Networking for Science.

The SIG-NGN Steering Committee would like to invite contributions to the agenda on themes such as:

- **Advanced networking for instruments**
- **Big Science, big networks**
- **Data Transport Services**
- **Specialised needs, e.g. supporting time & frequency**

SIG-NGN will see presentations and discussion on how advances in networking allow close integration of instrument, wide-area, and datacentre networks. How networks are tackling the extreme data transport needs of Big Science and its instruments, services that allow large data sets to be made available to their global science communities, and new services being offered to serve the special needs of science, such as high-precision timing.

Please send your suggestions to ngn-sc@lists.geant.org.

Remote Participation

Vidyo room: SIG-NGN

Auto-join URL: <https://vidyportal.cern.ch/join/rX9DYsYktY>

Extension: 10854543

Phone numbers: [howto-join-vidyo-meeting-by-phone](#)

Directions

Address: CERN, Route de Meyrin 385, 1217 Meyrin, Switzerland

CERN visitor pass: fill [this form](#) to request the CERN visitor pass

Meeting rooms:

Registration

[Registration is Open!](#)

Agenda (all times are in CET)

Monday, 13th January 2020

Time	What's happening
13:00-17:30	LHCOPN/LHCONE workshop

Tuesday, 14th January 2020

Time	What's happening
09:00-17:30	LHCOPN/LHCONE workshop

Wednesday, 15th January 2020 - SIG-NGN

Time	What's happening
09:30-10:30	<i>Coffee and Croissants</i>
10:30-11:00	Welcome , introduction to CERN and forward look on LHC's networking requirements - <i>Edoardo Martelli, CERN</i>
11:00-13:00	Time and frequency discussions Nicolas Quintin - OTFN Optical Time and Frequency Network Per Olof Hedekvist - National and International timing Jani Myyry - Nordic T&F activities Josef Vojtech - Where is right spectral gap for accommodation of emerged photonic services of time and frequency or QKD? Paolo Bolletta - Approach in Italy to T/F distribution
13:00-14:00	Lunch at own expense in CERN canteen
14:00-14:50	SCION: New directions for high-throughput and high-security academic research communication - <i>Adrian Perrig, ETH Zürich</i>

- On **Wednesday** the meeting will be in CERN's Computer Centre building on the CERN Meyrin site: [513/1-024](#) (on [Google Maps](#))
- On **Thursday** the meeting will be in the Amphitheatre of the IT building on the CERN Meyrin site: [31/3-004](#) (on [Google Maps](#))

Directions to CERN are [available](#). Please go to the [reception of CERN \(building 33\)](#) first when you arrive to print your visitor's pass or directly to the meeting venue if you have printed it already.

Geneva public transport:
<http://www.tpg.ch/en/web/site-international>
 Lines passing by CERN: Tram 18. Stop name: CERN.

There will be an optional organised dinner on the evening of Wednesday 15th January, but this will be at your own expense.

WI-FI

eduROAM and [CERN Guest network](#) is available. The [mail2print](#) service can also be used.

Hotels

Hotels close to CERN include:

- [CERN Housing](#) (you can use Edoardo Martelli as contact person)
- [Holiday Inn Express Geneva Airport](#).
- [Mövenpick Hotel & Casino Geneva](#).
- [Other nearby hotels](#)

Contact the [NGN Steering Committee](#)

[Attendee List](#)

15:00-17:00	Tour of CERN (limited places available).	
	15:00-15:45	Synchrocyclotron
	16:00-17:00	Antimatter Factory
17:00	End of Day 1	
19:30	Social dinner at own expense at Mr Pickwick	

Thursday, 16th January 2020 - SIG-NGN + HEPiX IPv6 WG

Time	What's happening
09:00-09:30	DCI for datalakes - <i>Paolo Bolletta, GARR</i>
09:30-10:00	Integrating Openstack with Tungsten – <i>Hamza Zafar and Ricardo Rocha, CERN</i>
10:00-10:30	Kubernetes Networking – <i>Marian Babik and Spyridon Trigazis, CERN</i>
10:30-11:00	Tea and coffee
11:00-11:30	EISCAT-3D – <i>Lars Fischer, NORDUnet</i>
11:30-12:00	LHCb Data Acquisition Network – <i>Niko Neufeld and Tommaso Colombo, CERN</i>
12:00-12:30	GradientGraph – <i>Jordi Ros-Giralt, Reservoir Lab</i>
12:30-13:00	ESnet6 High Touch Services: Real-Time Precision Telemetry and ML-based TCP Classification – <i>Richard Cziva & Chin Guok, ESnet</i>
13:00-14:00	Wrap up and Lunch
14:00-17:30	HEPiX IPv6 Working Group (meeting agenda and registration)

Friday, 17th January 2020

Time	What's happening
09:00-12:30	HEPIX IPv6 Working Group (meeting agenda and registration)
