eduVPN Training

Date and time: 24 February 2022, 11:00-13:00 CET **Online Seminar**

Description:

The purpose of eduVPN is to provide a more secure access to public and private networks for the international research and education community. The essential eduVPN user experience should be: "open your laptop and be securely online". eduVPN service instances offered by NRENs or universities, research labs, etc. allow students, researchers and staff from participating institutions to obtain a VPN on their devices to known end-points to access private or public networks across the world.

Objective:

The objective of this workshop is to raise awareness among decision makers about eduVPN, describe its value proposition and show eduVPN's benefit for NRENs and their users. This training covers a technical presentation of eduVPN and hands-on exercises to deploy, configure and join eduVPN community.

Target audience:

!!! Attention: Due to the Interactive format of the training, there will be **only a limited number of places available**. Preference will be given to participants from EaPConnect project partners and associates and the SEE NRENs. **!!!**

The workshop will be split in two parts

- Part 1 : For NREN decision makers (CEOs and CTOs) and technical teams from EaPConnect and SEE NRENs
- Part 2 : Engineers and technicians interested to actually deploy eduVPN at their NREN or help their institutions to deploy eduVPN from EaPConnect and SEE NRENs

Dates:

- Part 1: 24 February 2022, 11:00-13:00 CET
- Part 2: 30 MArch - 1 April 2022
