15 mins	Esmat Mirzamany	Jisc eVA Trial & Jisc iPass Service
12:30 - 13:30 Lunch		
13:30 - 15:30		
15 mins	Steffen Klemer	EAP supplicant in Javascript
15 mins	Kurt Baumann	5G beyonds the NRENs

80 mins	Group Discussions	What can we do in the future as a group: **please add your ideas here**
		- licensed/unlicensed spectrum for education and research purposes. - the E-SIM for uniform access to unwired services and other cool related stuff. - Internet of Things: LoRaWAN infrastructure (or others in the licensed/unlicensed spectrum band, e.g. 802.11ah /NB-IoT). - LTE-U. - Internet of Things: "Smart Campus". - Indoor Location Based Services. - Fixed/Mobile integration on campuses, helping institutes purchasing the right "mobile service". - Supporting/pushing Wifi-calling at the campus. - DAS-networks: still needed, or obsolete? - Robust and redundant unwired network deployments (at campus) for emergency situations. 5G projects and developments. - Wireless service (and beyond?!) by NRENs: do's and don'ts. - Cooperating with initiative such as WIFI4EU, public Wi-Fi (or FON, iPASS, Boingo...). - developments and next steps for govroam internationally. - eduroam privacy policy. - hotspot 2.0.
10 mins	All	Wrap- Up, Actions, AOB, Next Meeting
